Vranje, 40 good things

Within the "40 good things" campaign Komercijalna banka provided and appropriated financial funds and invested them in project of employing 40 people in Vranje district. In cooperation with Non-governmental organization "Life aid" from Vranje, a school kitchen was opened in High school of medicine, which provided permanent employment for 10 women, mostly single mothers and women whose lives were marked by pain and misery. This kitchen is equipped to prepare 1.000 meals of healthy-organic food and thus another 30 people were employed – the cooperators who are in business of breeding healthy food on the territory of Vranje municipality. For the functioning of this kitchen a delivery vehicle was purchased which will be used to distribute meals to elementary schools in villages close to Vranje. The most beautiful thing in this story is something that Ms. Jasmina Obradović, the kitchen attendant said: „Thanks to this project we have a permanent job, we are satisfied ad so are our children. Komercijalna banka, thank you!”
