3. CAPITAL REQUIREMENTS AND CAPITAL ADEQUACY

- The Group calculates the capital adequacy ratios (CET1, T1 and T2) and capital requirements in accordance with the regulations of the National Bank of Serbia by using the standardized approach for risk weighted exposures for:
 - credit, counterparty and dilution risks and free deliveries risk;
 - settlement/delivery risk (except for free deliveries);
 - market risks;
 - operational risk;
 - credit valuation adjustment risk;
 - risk exposure amount related to exposure limit excesses in the trading book.
- Regulatory prescribed minimum capital adequacy ratio is 8% plus combined capital buffer requirement which consists of capital conservation buffer (2.5%), systemically important bank buffer (2%) and systemic risk buffer (1.54%) – while as of June 30, 2020 the Group didn't calculate countercyclical capital buffer.
 - The Group calculates three capital adequacy ratios:
 - CAR of total Group's capital (min 8% + combined capital buffer requirement 6.04pp)
 - CAR of Tier 1 Group's capital (min 6% + combined capital buffer requirement 6.04pp)
 - CAR of Common Equity Tier 1 Group's capital (min 4.5% + combined capital buffer requirement 6.04pp)

T1 capital adequacy ratio (minimum 6%+ combined capital buffer requirement)	27.87%	27.05%
Capital adequacy ratio (minimum 8%+ combined capital buffer requirement)	27.87%	27.05%

- As of June 30, 2020 the Group doesn't have capital requirement for foreign exchange risk, since the net open FX positions of individual banking Group members were below 2% of their regulatory capitals. Also, the Group didn't set aside the capital requirements for settlement/delivery risk (except for free deliveries), for credit valuation adjustment risk, nor for exposure limit excesses in the trading book.
- Overview of capital requirements is given in Annex 4 – Data on Total Capital Requirements and Capital Adequacy Ratio (PI-AKB).

* DCA – Decision on Capital Adequacy of Banks

** To be completed by the ultimate parent company, obliged to calculate the banking group's capital based on the data from the consolidated financial statements, in accordance with the decision on consolidated supervision of a banking group.

*** As a percentage of risk-weighted assets.

**** Calculated as Common Equity Tier 1 capital of the bank (expressed as percentage of risk-weighted assets), less Common Equity Tier 1 capital of the bank used to maintain the Common Equity Tier 1 capital ratio referred to in Section 3, paragraph 3, item 1) of the DCA, the Tier 1 capital ratio referred to in Section 3, paragraph 3, item 2) of the DCA and the total capital ratio referred to in Section 3, paragraph 3, item 3) of the DCA.

NOTE: In amount under no 28 which refers to total regulatory adjustments and deductibles from CET1 capital of the Banking Group, the total amount of RSD (3,419,758) thousand, along with the amounts disclosed under positions from 9 to 27, also includes additional amounts, which refer to deductibles prescribed by section 13. paragraph 1. items from 13) to 15) of Decision on Capital Adequacy of Banks, for the parent Bank, specifically:

1) Gross amount of receivables from the borrower – natural person (other than a farmer or an entrepreneur) arising from extended consumer, cash or other loans disclosed in accounts 102, 107 and 108 in accordance with the decision prescribing the Chart of Accounts and contents of accounts in the Chart of Accounts for Banks where the level of the borrower's debt-to-income ratio before loan approval was higher than the percentage defined in accordance with the decision governing the classification of bank balance sheet assets and off-balance sheet items and where this percentage will be higher due to loan approval. This deductible shall be applied regardless of whether following the loan approval the level of the borrower's debt-to-income ratio has dropped below the said percentage, in amount of RSD (3,013) thousand and

2) Gross amount of receivables from the borrower – natural person (other than a farmer or an entrepreneur) arising from extended consumer, cash or other loans, other than the loans disclosed under item 1.1.1.27 of KAP Form, disclosed in accounts 102, 107 and 108 in accordance with the decision prescribing the Chart of Accounts and contents of accounts in the Chart of Accounts for Banks, which under the criterion agreed maturity qualify for the deduction from Common Equity Tier 1 prescribed by the decision governing bank capital adequacy, in amount of RSD (34,955) thousand.

In addition to the financial instruments disclosed within the form PI-FIKAP (Annex 2), the capital calculation (Consolidated data on banking Group Capital – Form PI-KAP) as of June 30, 2020, includes also the following elements:

- **Reserves from profit** – This element of the CET1 capital comprises all types of reserves that are formed chargeable to profit after its taxation, in line with the Decisions of the General Meeting of Bank's Shareholders of the parent Bank and its subsidiaries abroad (KB Podgorica i KB Banja Luka) and the effective regulations. In accordance with the Decision on Capital Adequacy of Banks, the parent Bank is obliged to – after the adoption of the relevant decision by General Meeting of Bank's Shareholders – inform NBS at the latest 30 days before the day of inclusion of reserves from profit in the calculation of capital, accompanied with the relevant documentation;
- **Losses from previous years and current period loss** – Consolidated loss from previous years in amount of RSD 1,261,335 thousand is deductible item from the Group's CET 1 capital;
- **Intangible assets, including goodwill** – Intangible assets include investments in R&D, patents, licenses, software and similar rights, net of calculated depreciation and deferred tax liabilities associated to other intangible assets which would cease to exist in case of impairment or cessation of recognition of such intangible assets in accordance with the IFRS/IAS, represent a deductible item from CET 1 capital;
- **Unrealized losses on securities measured at fair value through other comprehensive income** – These losses refer to Komercijalna banka AD Beograd and its subsidiaries abroad (Komercijalna banka AD Podgorica and Komercijalna banka AD Banja Luka). The stated losses represent a deductible from CET 1 capital and are a result of negative fluctuations of prices of relevant instruments in relation to their initial value;
- **The amount of reserve for estimated losses calculated in accordance with NBS regulations (if these regulations stipulate the obligation to allocate this reserve)** – The applicable regulations of the National Bank of Serbia have not established the obligation to allocate this reserve;
- **Revaluation reserves and other unrealized gains** – The decrease in the value of intangible assets and fixed assets of Komercijalna banka AD Beograd and the negative net effects of the change in the fair value of securities measured at fair value through other comprehensive income in the parent Bank KB Beograd, including slight increase in consolidated revaluation reserves, mostly influenced the reduction in created revaluation reserves and other unrealized gains during the observed reporting period;
- **Additional value adjustments** – regulatory value adjustments of CET1 capital elements, which represent deductible item of capital, refer to additional value adjustments of long-term bonds issued by foreign governments (Ministry of Finance Republic of Srpska) and securities' portfolios of KB Podgorica and KB Banja Luka which are measured at fair value through other comprehensive income denominated in foreign currency, due to assessment that independent sources of market information are not available, i.e. there are no available benchmark prices. In accordance with the Decision on Capital Adequacy of Banks the amount of additional value adjustments (RSD 6,053 thousand) is calculated as 0.1% of the aforementioned portion of fair

value of long-term bonds;

- **Direct or indirect investment in banks and other financial sector persons that exceed 10% of the capital of such banks and/or other financial sector persons** – The parent Bank has share in equity in the following dependent persons: KomBank Invest ad Beograd, Komercijalna banka AD Banja Luka and Komercijalna banka AD Podgorica. Share capital of subsidiaries abroad – KB Podgorica and KB Banja Luka (RSD equivalent in amount of RSD 6,825.00 million) and parent Bank's equity investments in these entities (RSD 5,340.9 million) are consolidated in accordance with the IAS/IFRS, while the difference in amount of RSD 1,484.1 million, along with other positive revaluation reserves, after the reduction by associated tax effects, is being included in the regulatory capital of the banking Group in the position: „Revaluation reserves and other unrealized gains“. Equity investment in subsidiary – Investment Management Company KomBank INVEST AD Beograd (RSD 140 million), after the reduction for eventual accumulated gains of this subsidiary, is included in KB Group risk weighted assets with the risk weight of 250% in accordance with the Decision on Capital Adequacy of Banks. Starting from June 30, 2017 aforementioned investments are no longer deductible item from capital. In addition to these investments, the parent Bank has share in equity in Euroaxis bank AD Moscow, which exceeds 10% of capital of that legal entity, which was fully corrected – corrective account of share in equity of banks abroad, on the expense side;
- **The portion of deferred tax assets that rely on future profitability and do not arise from temporary differences** in amount of RSD 1,039,709 thousand registered on the basis of tax benefits in accordance with the regulations, is included in the relevant position of deductible items from CET 1 capital, after being reduced by the amount of related deferred tax liabilities.
