INDEPENDENT AUDITORS' REPORT

TO THE OWNERS OF KOMERCIJALNA BANKA A.D. BEOGRAD

Report on Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Komercijalna banka a.d. Beograd and its subsidiaries (hereinafter: the Group), which comprise the consolidated balance sheet as at 31 December 2016, and the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flow for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing as applicable in the Republic of Serbia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 31 December 2016, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Building a better
working world

Report on other legal and regulatory requirements

We have reviewed the annual business report of the Group. Management is responsible for the preparation of the annual business report in accordance with the legal requirements of the Republic of Serbia. Our responsibility is to assess whether the annual business report is consistent with the annual consolidated financial statements for the same financial year. Our work regarding the annual business report has been restricted to assessing whether the accounting information presented in the annual business report is consistent with the annual consolidated financial statements and did not include reviewing other information contained in the annual business report originating from non-audited financial or other records. In our opinion, the accounting information presented in the annual business report is consistent, in all material respects, with the consolidated financial statements of the Group for the year ended 31 December 2016.

Other matter

The consolidated financial statements of the Group for the year ended 31 December 2015 were audited by another auditor who expressed an unqualified opinion on those statements on 6 April 2016.

Belgrade, 23 March 2017

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

1. ESTABLISHMENT AND ACTIVITY OF THE BANKING GROUP

Komercijalna banka a.d., Beograd (hereinafter the "Parent Bank"), was established as at December 1, 1970 and transformed into a shareholding company as of May 6, 1992. The Bank was registered with the Commercial Court in Belgrade on July 10, 1991 and later re-registered with the Serbian Business Registers Agency on April, 14 2006. The Bank was issued its operating license by the National Bank of Yugoslavia on July 3, 1991. The Parent Bank's tax identification number is 100001931.

The principal holders of voting shares in the Parent Bank are as follows:

Republic of Serbia	41.74%
EBRD, London	24.43%

The Parent Bank has three subsidiaries with the following equity interests:

- 100% - Komercijalna banka a.d., Budva, Montenegro
- 100% - KomBank INVEST a.d., Beograd, Serbia
- 99.998 % - Komercijalna banka a.d., Banja Luka, Bosnia and Herzegovina

Minority owner (non-controlling interest) of Komercijalna banka a.d., Banja Luka with 0.002% equity interest is the Republic of Serbia Export Credit and Insurance Agency.

The consolidated financial statements and notes to the consolidated financial statements represent information of the Parent Bank, of Komercijalna banka a.d., Budva, Montenegro, Komercijalna banka a.d., Banja Luka and Investment Fund Management Company KomBank Invest a.d., Beograd (jointly the "Group").

Komercijalna banka a.d., Budva was established as an affiliate of Komercijalna banka a.d., Beograd in November 2002 and entered into the Central Register maintained by the Commercial Court of Podgorica at March 6, 2003. Its corporate ID number is 02373262.

Komercijalna banka a.d., Banja Luka was established in September 2006 and registered with the Court Register under the relevant decision of the Basic Court in Banja Luka at September 15, 2006. Its corporate ID number is 11009778.

The Investment Fund Management Company KomBank Invest a.d., Beograd was founded in December 2007 and registered at February 5, 2008. Its corporate ID number is 20379758.

The Group's activities include crediting activities, deposit and guarantee activities and payment transfer operations in the country and abroad in accordance with the Law on Banks, as well as investment fund managing activities. The Group is obligated to operate based upon principles of liquidity, safety and profitability.

As of December 31, 2014 the Group was comprised of the Central Office in Belgrade at the address of no.14, Svetog Save St. head office of Komercijalna banka a.d., Budva in Budva at the address of PC Podkošljun bb, head office of Komercijalna banka a.d., Banja Luka in Banja Luka at the address of no. 6, Veselina Masleše St., head office of Investment Fund Management Company KomBank Invest a.d., Beograd in Belgrade, at the address of no. 19, Kralja Petra St.; 34 branch offices and 228 sub-branches in the territories of Serbia, Montenegro and Bosnia and Herzegovina (2015: 38 branch offices and 228 sub-branches).

As of December 31, 2016 the Group had 3,152 employees, and as of December 31, 2015 3,148 employees.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

2.1. Basis of Preparation and Presentation of Consolidated Financial Statements

The Bank's consolidated financial statements for 2016 have been prepared in accordance with the International Financial Reporting Standards ("IFRS").

The accompanying financial statements are presented in the format prescribed under the Decision on the Forms and Contents of the Items in the Forms of Financial Statements of Banks (Official Gazette of RS nos. 71/2014 and 135/2014).

These consolidated financial statements were prepared at historical cost principle unless otherwise stipulated in the accounting policies presented hereunder.

In the preparation of the accompanying financial statements, the Parent Bank adhered to the accounting policies described in Note 3.

Group members during 2016, kept accounting records and prepared individual financial statements in accordance with local laws, other regulations, which are based on International Accounting Standards ("IAS") and International Financial Reporting Standards ("IFRS") and the regulations of the respective central banks and regulatory bodies. The individual financial statements have been audited by the external auditors, based on applicable local regulations.

For the purpose of preparing consolidated financial statements, the individual financial statements of subsidiary banks were adjusted for financial statement presentation based on accounting regulations of the Republic of Serbia.

These consolidated financial statements were approved by the Executive Board of Komercijalna banka ad, Beograd as at 17 March 2017.

The Bank's financial statements are stated in thousands of dinars (RSD). Dinar is the official reporting currency in the Republic of Serbia. Unless otherwise stated, all amounts are stated in dinars and rounded in thousands.

Functional currency EUR in the financial statements of Komercijalna banka ad, Budva and BAM from the financial statements of Komercijalna Banka AD, Banja Luka, are denominated into the reporting currency, which is the functional currency of the Parent Bank - dinar (RSD) based on the officially published exchange rates in the Republic of Serbia.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.2. Standards and Interpretations Issued that Came into Effect in the Current Period Pursuant to the Decision on Adoption of the Translations of the Ministry

The accounting policies adopted are consistent with those of the previous financial year except for the following amended IFRSs which have been adopted by the Bank as of 1 January 2016:

- **IAS 27 Separate Financial Statements (amended)**

The amendment is effective for annual periods beginning on or after 1 January 2016. This amendment allows entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements and will help some jurisdictions move to IFRS for separate financial statements, reducing compliance costs without reducing the information available to investors. Management has made use of this amendment.

- **IAS 1: Disclosure Initiative (Amendment)**

The amendments to IAS 1 Presentation of Financial Statements further encourage companies to apply professional judgment in determining what information to disclose and how to structure it in their financial statements. The amendments are effective for annual periods beginning on or after 1 January 2016. The narrow-focus amendments to IAS clarify, rather than significantly change, existing IAS 1 requirements. The amendments relate to materiality, order of the notes, subtotals and disaggregation, accounting policies and presentation of items of other comprehensive income (OCI) arising from equity accounted investments. Management has made use of this amendment.

- **IAS 16 Property, Plant & Equipment and IAS 38 Intangible assets (Amendment): Clarification of Acceptable Methods of Depreciation and Amortization**

The amendment is effective for annual periods beginning on or after 1 January 2016. The amendment provides additional guidance on how the depreciation or amortization of property, plant and equipment and intangible assets should be calculated. This amendment clarifies the principle in IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, the ratio of revenue generated to total revenue expected to be generated cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortize intangible assets. Management has made use of this assessment.

- **IFRS 11 Joint arrangements (Amendment): Accounting for Acquisitions of Interests in Joint Operations**

The amendment is effective for annual periods beginning on or after 1 January 2016. IFRS 11 addresses the accounting for interests in joint ventures and joint operations. The amendment adds new guidance on how to account for the acquisition of an interest in a joint operation that constitutes a business in accordance with IFRS and specifies the appropriate accounting treatment for such acquisitions. The Bank had no transactions in scope of this amendment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.2. Standards and Interpretations Issued that Came into Effect in the Current Period Pursuant to the Decision on Adoption of the Translations of the Ministry (continued)

• IAS 19 Defined Benefit Plans (Amended): Employee Contributions

The amendment is effective for annual periods beginning on or after 1 February 2015. The amendment applies to contributions from employees or third parties to defined benefit plans. The objective of the amendment is to simplify the accounting for contributions that are independent of the number of years of employee service, for example, employee contributions that are calculated according to a fixed percentage of salary. The Company does not have any plans that fall within the scope of this amendment.

- The IASB has issued the **Annual Improvements to IFRSs 2010 - 2012 Cycle**, which is a collection of amendments to IFRSs. The amendments are effective for annual periods beginning on or after 1 February 2015. None of these had an effect on the Company's financial statements:

- **IFRS 2 Share-based Payment:** This improvement amends the definitions of 'vesting condition' and 'market condition' and adds definitions for 'performance condition' and 'service condition' (which were previously part of the definition of 'vesting condition').
- **IFRS 3 Business combinations:** This improvement clarifies that contingent consideration in a business acquisition that is not classified as equity is subsequently measured at fair value through profit or loss whether or not it falls within the scope of IFRS 9 Financial Instruments.
- **IFRS 8 Operating Segments:** This improvement requires an entity to disclose the judgments made by management in applying the aggregation criteria to operating segments and clarifies that an entity shall only provide reconciliations of the total of the reportable segments' assets to the entity's assets if the segment assets are reported regularly.
- **IFRS 13 Fair Value Measurement:** This improvement in the Basis of Conclusion of IFRS 13 clarifies that issuing IFRS 13 and amending IFRS 9 and IAS 39 did not remove the ability to measure short-term receivables and payables with no stated interest rate at their invoice amounts without discounting if the effect of not discounting is immaterial.
- **IAS 16 Property Plant & Equipment:** The amendment clarifies that when an item of property, plant and equipment is revalued, the gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount.
- **IAS 24 Related Party Disclosures:** The amendment clarifies that an entity providing key management personnel services to the reporting entity or to the parent of the reporting entity is a related party of the reporting entity.
- **IAS 38 Intangible Assets:** The amendment clarifies that when an intangible asset is revalued the gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.2. Standards and Interpretations Issued that Came into Effect in the Current Period Pursuant to the Decision on Adoption of the Translations of the Ministry (continued)

- The IASB has issued the **Annual Improvements to IFRSs 2012 - 2014 Cycle**, which is a collection of amendments to IFRSs. The amendments are effective for annual periods beginning on or after 1 January 2016. None of these had an effect on the Company's financial statements
 - **IFRS 5 Non-current Assets Held for Sale and Discontinued Operations:** The amendment clarifies that changing from one of the disposal methods to the other (through sale or through distribution to the owners) should not be considered to be a new plan of disposal, rather it is a continuation of the original plan. There is therefore no interruption of the application of the requirements in IFRS 5. The amendment also clarifies that changing the disposal method does not change the date of classification.
 - **IFRS 7 Financial Instruments: Disclosures:** The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. Also, the amendment clarifies that the IFRS 7 disclosures relating to the offsetting of financial assets and financial liabilities are not required in the condensed interim financial report.
 - **IAS 19 Employee Benefits:** The amendment clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used.
 - **IAS 34 Interim Financial Reporting:** The amendment clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the greater interim financial report (e.g., in the management commentary or risk report). The Board specified that the other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time. If users do not have access to the other information in this manner, then the interim financial report is incomplete.

2.3. Standards and Interpretations Issued but not yet Effective

At the date of issuance of these financial statements the following standards, revisions and interpretations were in issue but not yet effective:

- **IFRS 9 Financial Instruments: Classification and Measurement**

The standard is effective for annual periods beginning on or after 1 January 2018, with early application permitted. The final version of IFRS 9 Financial Instruments reflects all phases of the financial instruments project and replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. Management has made an assessment of the effect of the standard (please see further under the same Note 2.3.)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3. Standards and Interpretations in Issue not yet in Effect (continued)

• IFRS 15 Revenue from Contracts with Customers

The standard is effective for annual periods beginning on or after 1 January 2018. IFRS 15 establishes a five-step model that will apply to revenue earned from a contract with a customer (with limited exceptions), regardless of the type of revenue transaction or the industry. The standard's requirements will also apply to the recognition and measurement of gains and losses on the sale of some non-financial assets that are not an output of the entity's ordinary activities (e.g., sales of property, plant and equipment or intangibles). Extensive disclosures will be required, including disaggregation of total revenue; information about performance obligations; changes in contract asset and liability account balances between periods and key judgments and estimates. It is not expected that the requirements of this standard will have significant effect on Bank's financial statements.

• IFRS 15: Revenue from Contracts with Customers (Clarifications)

The Clarifications apply for annual periods beginning on or after 1 January 2018 with earlier application permitted. The objective of the Clarifications is to clarify the IASB's intentions when developing the requirements in IFRS 15 *Revenue from Contracts with Customers*, particularly the accounting of identifying performance obligations amending the wording of the "separately identifiable" principle, of principal versus agent considerations including the assessment of whether an entity is a principal or an agent as well as applications of control principle and of licensing providing additional guidance for accounting of intellectual property and royalties. The Clarifications also provide additional practical expedients for entities that either apply IFRS 15 fully retrospectively or that elect to apply the modified retrospective approach. It is not expected that the requirements of this standard will have significant effect on Bank's financial statements.

• IFRS 16: Leases

The standard is effective for annual periods beginning on or after 1 January 2019. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, i.e. the customer ('lessee') and the supplier ('lessor'). The new standard requires lessees to recognize most leases on their financial statements. Lessees will have a single accounting model for all leases, with certain exemptions. Lessor accounting is substantially unchanged. The Management is in the process of assessing the effect that the requirements of this standard will have on the financial statements of the Bank.

• Amendment in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments address an acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. In December 2015 the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. It is not expected that the amendments of this standard will have effect on the Bank's financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3. Standards and Interpretations in Issue not yet in Effect (continued)

• **IAS 12: Recognition of Deferred Tax Assets for Unrealized Losses (Amendments)**

The Amendments become effective for annual periods beginning on or after 1 January 2017 with earlier application permitted. The objective of the Amendments is to clarify the requirements of deferred tax assets for unrealized losses in order to address diversity in practice in the application of IAS 12 Income Taxes. The specific issues where diversity in practice existed relate to the existence of a deductible temporary difference upon a decrease in fair value, to recovering an asset for more than its carrying amount, to probable future taxable profit and to combined versus separate assessment. It is not expected that the amendments of this standard will have effect on the Bank's financial statements.

• **IAS 7: Disclosure Initiative (Amendments)**

The Amendments are effective for annual periods beginning on or after 1 January 2017 with earlier application permitted. The objective of the Amendments is to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The Amendments specify that one way to fulfil the disclosure requirement is by providing a tabular reconciliation between the opening and closing balances in the statement of financial position for liabilities arising from financing activities, including changes from financing cash flows, changes arising from obtaining or losing control of subsidiaries or other businesses, the effect of changes in foreign exchange rates, changes in fair values and other changes. It is not expected that the amendments of this standard will have effect on the Bank's financial statements.

• **IFRS 2: Classification and Measurement of Share based Payment Transactions (Amendments)**

The Amendments are effective for annual periods beginning on or after 1 January 2018 with earlier application permitted. The Amendments provide requirements on the accounting for the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments, for share-based payment transactions with a net settlement feature for withholding tax obligations and for modifications to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled. It is not expected that the amendments of this standard will have effect on the Bank's financial statements.

• **IAS 40: Transfers to Investment Property (Amendments)**

The Amendments are effective for annual periods beginning on or after 1 January 2018 with earlier application permitted. The Amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The Amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use. It is not expected that the amendments of this standard will have effect on the Bank's financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3. Standards and Interpretations in Issue not yet in Effect (continued)

• **IFRIC INTERPETATION 22: Foreign Currency Transactions and Advance Consideration**

The Interpretation is effective for annual periods beginning on or after 1 January 2018 with earlier application permitted. The Interpretation clarifies the accounting for transactions that include the receipt or payment of advance consideration in a foreign currency. The Interpretation covers foreign currency transactions when an entity recognizes a non-monetary asset or a non-monetary liability arising from the payment or receipt of advance consideration before the entity recognizes the related asset, expense or income. The Interpretation states that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration. It is not expected that the amendments of this standard will have effect on the Bank's financial statements.

- **The IASB has issued the Annual Improvements to IFRSs 2014 - 2016 Cycle**, which is a collection of amendments to IFRSs. The amendments are effective for annual periods beginning on or after 1 January 2017 for IFRS 12 Disclosure of Interests in Other Entities and on or after 1 January 2018 for IFRS 1 First-time Adoption of International Financial Reporting Standards and for IAS 28 Investments in Associates and Joint Ventures. Earlier application is permitted for IAS 28 Investments in Associates and Joint Ventures. It is not expected that the amendments of this standard will have effect on the Bank's financial statements.

- **IFRS 1 First-time Adoption of International Financial Reporting Standards:** This improvement deletes the short-term exemptions regarding disclosures about financial instruments, employee benefits and investment entities, applicable for first time adopters.
- **IAS 28 Investments in Associates and Joint Ventures:** The amendments clarify that the election to measure at fair value through profit or loss an investment in an associate or a joint venture that is held by an entity that is venture capital organization, or other qualifying entity, is available for each investment in an associate or joint venture on an investment-by-investment basis, upon initial recognition.
- **IFRS 12 Disclosure of Interests in Other Entities:** The amendments clarify that the disclosure requirements in IFRS 12, other than those of summarized financial information for subsidiaries, joint ventures and associates, apply to an entity's interest in a subsidiary, a joint venture or an associate that is classified as held for sale, as held for distribution, or as discontinued operations in accordance with IFRS 5.

Key requirements of IFRS 9 Financial Instruments:

In July 2014, the IASB issued IFRS 9 Financial Instruments, the standard that will replace IAS 39 for annual periods on or after 1 January 2018. In 2016 the Bank set up a multisector implementation team ('the Team') with members from its Risk, Finance and other business units to prepare for IFRS 9 implementation ('the Project'). The Project is sponsored by the deputy Chief Executive Officer and competent for risk. Bank engage consultant to help to IFRS 9 be successfully implemented. As result of analyses of business model it is not determined that there are some facts that indicate that business model is not hold to collect payments from principal and interest. Currently, the Bank are finishing analysis in phases of classification and measurement and analysing elements of improving methodology of impairment and disclosure requirements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3. Standards and Interpretations in Issue not yet in Effect (continued)

Key requirements of IFRS 9 Financial Instruments: (continued)

Classification and measurement

From a classification and measurement perspective, the new standard will require all financial assets, except equity instruments and derivatives, to be assessed based on a combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics. The IAS 39 measurement categories will be replaced by: amortised cost, fair Value through profit or loss (FVPL) and fair value through other comprehensive income (FVOCI). IFRS 9 will also allow entities to continue to irrevocably designate instruments that qualify for amortised cost or fair value through OCI instruments as FVPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments that are not held for trading may be irrevocably designated as FVOCI, with no subsequent reclassification of gains or losses to the income statement.

The accounting for financial liabilities will largely be the same as the requirements of IAS 39.

During initial assessment Bank expect that:

- Loans and advances to customers and banks, that are classified as loans and receivables under IAS 39 are expected to in the most part be measured at amortised cost under IFRS 9 with eventual adjustments of contractual provisions.
- Financial instruments held for trading and those designated at FVPL are expected to be continue to be measured at FVPL
- The debt securities classified as available for sale under IAS 39 are expected to be measured as FVPL, amortised cost or FVOCI. As described above, the Bank is in the early stage of implementation of IFRS 9 and working with consultants on initial assessment of measurement of debt AFS securities.
- Debt securities classified as held to maturity are expected to continue to be measured at amortised cost.

Impairment of financial assets

IFRS 9 will also fundamentally change the loan loss impairment methodology. The standard will replace IAS 39's incurred loss approach with a forward-looking expected loss (ECL) approach. The Bank will be required to record an allowance for expected losses for all loans and other debt financial assets not held at FVPL, together with loan commitments and financial guarantee contracts. The allowance is based on the expected credit losses associated with the probability of default in the next twelve months unless there has been a significant increase in credit risk since origination, in which case, the allowance is based on the probability of default over the life of the asset.

The Bank is analysing in which part of portfolio credit risk was increased significantly since initial recognition in order to include default rate for remaining life time for financial instrument for calculation of ECL. Establishing of this on regular bases is in process.

ECLs are estimated based on the present value of all cash shortfalls over the remaining expected life of the financial asset, i.e., the difference between:

- The contractual cash flows that are due to the Bank under the contract, and
- The cash flows that the Bank expects to receive, discounted at the effective interest rate of the loan.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3. Standards and Interpretations in Issue not yet in Effect (continued)

Key requirements of IFRS 9 Financial Instruments: (continued)

In comparison to IAS 39, the Bank expects the impairment charge under IFRS 9 to be more volatile than under IAS 39 and to result in an increase in the total level of current impairment allowances.

The total loan portfolio would be group into Stage 1, Stage 2 and Stage 3:

- **Stage 1** - Performing loans when increase of credit risk is not detect from first recognition. The Bank calculates allowance based on 12-month expected credit losses.
- **Stage 2** - Underperforming loans when significantly increase of credit risk is detect from first recognition. The Bank calculates an allowance for the lifetime expected credit loss.
- **Stage 3** - Impaired loans. The Bank recognises the lifetime expected credit losses for these loans. In addition, in Stage 3 the Bank accrues interest income on the amortised cost of the loan net of allowances.

The Bank will record impairment for FVOCI debt securities, depending on whether they are classified as Stage 1, 2, or 3, as explained above. However, the expected credit losses will not reduce the carrying amount of these financial assets in the statement of financial position, which will remain at fair value. Instead, an amount equal to the allowance that would arise if the asset were measured at amortised cost will be recognised in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss.

Stage 1

The impairment of financial instruments that are not considered to have suffered a significant increase in their credit risk will be measured on a 12-month ECL basis under IFRS 9 but it is expected to be on higher level as result of not using collaterals as deductible items from gross exposure.

Stage 2

All financial instruments with increase of credit risk from initial recognition would be classified in Stage 2 and loss allowance would be calculated based on their lifetime ECLs, what is a new concept compared to IAS 39. The result of that would be increase of allowance relative of level of loan allowance calculate at the end of 2016.

The Bank considers whether there has been a significant increase in credit risk of an asset by comparing the lifetime probability of default upon initial recognition of the asset against the risk of a default occurring on the asset as at the end of each reporting period. In each case, this assessment is based on forward-looking assessment that takes into account a number of economic scenarios, in order to recognise the probability of higher losses associated with more negative economic outlooks. It is the Bank's policy to evaluate additional available reasonable and supportive forwarding-looking information as further additional drivers.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

2. BASIS OF PREPARATION AND PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3. Standards and Interpretations in Issue not yet in Effect (continued)

Key requirements of IFRS 9 Financial Instruments: (continued)

Stage 3

As well as under IAS 39, financial instrument will be included in Stage 3 when there is objective evidence that the loan is credit impaired and it is not expected to the population in stage 3 be changed. Impairment on an individual basis will continue to be calculated on the same basis.

It is expected that loans in stage 3 will be the same as those considered to be impaired in accordance with IAS 39.

When forbearance results in the derecognition of the original loan the new loan will be classified as originated credit-impaired.

Forward-looking information

The Bank will incorporate forward-looking information in both the assessment of significant increase in credit risk and the measurement of ECLs. The Bank will consider forward-looking information such as macroeconomic factors (e.g. unemployment, GDP growth, interest rates and house prices) and economic forecasts.

Limitation of estimation techniques

The models applied by the Bank may not always capture all characteristics of the market at a point in time as they cannot be recalibrated at the same pace as changes in market conditions. Interim adjustments are expected to need to be made until the base models are updated. The Bank will use data that is as current as possible and adjustments will be made for significant events occurring prior to the reporting date to. The governance over such adjustments is still in development.

Capital management

The Bank is in the process of evaluating how the new ECL model will impact the Bank's ongoing regulatory capital structure and further details will be provided once the assessment is complete. The magnitude of the effect will depend, amongst other things, on whether the capital rules will be amended to reflect IFRS 9 or to include transition provisions for the effect of IFRS 9.

2.4. Going Concern

The consolidated financial statements were prepared on a going concern assumption entailing the Group's continuation of operations for an indefinite period in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been consistently applied by the Group members to all periods presented in these financial statements.

(a) Consolidation

The Parent Bank has control over the following legal entities, which are consolidated into these financial statements:

Legal Entity	<u>Equity Interest</u>
Komercijalna banka a.d., Budva, Montenegro	100%
Komercijalna banka a.d., Banja Luka, Bosnia and Herzegovina	99.99%
Investment Fund Management Company KomBank Invest a.d., Beograd, Serbia	100%

The consolidated income statement and consolidated cash flow statement have been recalculated at the average exchange rate in the Republic of Serbia for the year 2016 of RSD 123.1015 for EUR 1 and RSD 62.9408 for BAM 1, while the other consolidated financial statements (balance sheet, statement of other comprehensive income and statement of changes in equity) were recalculated by applying the closing exchange rate effective as of the balance sheet date of RSD 123.4723 for EUR 1 and RSD 63.1304 for BAM 1.

(b) Foreign Exchange Denomination

Transactions in foreign currencies are denominated into RSD at the spot middle exchange rates effective at the date of the transactions.

Monetary assets and liabilities denominated in foreign currencies which are stated at cost, are translated at the rate ruling at the reporting date. Foreign exchange differences arising on translation are recognized in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transaction.

Exchange rates for major currencies used in the translation of the balance sheet items denominated in foreign currencies, as determined by the National Bank of Serbia, were as follows:

	<u>2016</u>	<u>In RSD 2015</u>
USD	117.1353	111.2468
EUR	123.4723	121.6261
CHF	114.8473	112.5230
BAM	63.1304	62.1864

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Interest

Interest income and expense are recognized in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability.

When calculating the effective interest rate, each Group member estimates future cash flows considering all contractual terms of the financial instrument but not future credit losses.

The calculation of the effective interest rate includes all fees and points paid or received that are an integral part of the effective interest rate.

Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

The recognition of interest income on impaired loans is performed on a net basis, by reducing gross accrued interest for amount of impairment, ie for the amount that is likely not to be charged.

Interest income and expense presented in the statement of comprehensive income include:

- interest on financial assets and financial liabilities measured at amortized cost calculated on an effective interest basis;
- interest on investment securities available for sale.

Interest income and expenses on all trading assets and liabilities are considered to be incidental to the Group members' trading operations and are presented together with all other changes in the fair value of trading assets and liabilities in net trading income.

(d) Fees and Commissions

Fee and commission income and expenses that are integral to the effective interest rate on a financial asset or liability are included in the measurement of the effective interest rate.

Other fee and commission income is recognized as the related services are performed. Fee and commission income includes transfer payments in foreign currency, domestic payments transactions, loan administration, guarantee, letter of credit business and other banking services.

Other fee and commission expenses relate mainly to transaction and service fees, which are expensed as the services are received.

(e) Net Trading Income

Net trading income comprises gains less losses, related to trading assets and liabilities, and includes all realized and unrealized fair value changes and foreign exchange differences.

(f) Net income from Other Financial Instruments at Fair Value through Profit or Loss

Net income from other financial instruments at fair value through profit or loss, relates to financial assets and liabilities designated at fair value through profit or loss and includes all realized and unrealized fair value changes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Dividends

Income from dividends is recognized at the moment of economic benefits inflow arising from dividends. Dividends are reported under other income.

(h) Operating and Finance Lease Payments

Payments made during the year under operating leases are charged to the income statement on a straight-line basis over the period of the lease. Lease incentives received are recognized as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

(i) Tax Expenses

Tax expense comprises current taxes and deferred taxes. Current taxes and deferred taxes are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

(i) Current Income Tax

Current tax is expected tax payable or receivable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Current taxes and deferred taxes are recognised as income or expense and are included in current net gain/(loss).

(ii) Deferred Income Tax

Deferred income tax is recognized in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted by the reporting date.

Deferred income tax relating to items recognized directly credited or charged to equity is also charged in favor of capital.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities against current tax assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously in future periods.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that the future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred tax liabilities are recognized on all taxable temporary differences.

(iii) Other Taxes and Contributions

According to the relevant legislation in the Republic of Serbia, Montenegro and Bosnia and Herzegovina, Group members pay various taxes and contributions, such as VAT, capital gains tax and payroll contributions. These are included under "Other operating expenses".

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Financial Assets and Liabilities

(i) Recognition

The Group members initially recognize loans and receivables, deposits, borrowings and subordinated liabilities on the date at which they are transferred to the borrower or received. All other financial assets and liabilities are initially recognized on the date at which the relevant entity becomes a party to the contractual provisions of the instrument (trade date).

A financial asset or liability is measured initially at fair value plus transaction costs that are directly attributable to its acquisition or issue, for items that are not carried at fair value through profit or loss.

(ii) Classification

The Group members classified their financial assets into the following categories: financial assets held for trading, loans and receivables and investment securities - please refer to accounting policies 3(l), 3(m) and 3(n).

The Group members classify financial liabilities as measured at amortized cost or held for trading - please refer to accounting policies.

(iii) Derecognition

The Group members derecognize a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Group member neither transfers nor retains substantially all the risk and rewards of ownership and it does not retain control of the financial asset. Any interest in transferred financial assets that qualifies for derecognition that is created or retained by the Group member is recognized as a separate asset or liability in the balance sheet. On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognized in other comprehensive income is recognized in profit or loss.

A Group member enters in transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognized. Transfers of assets with retention of all or substantially all risks and rewards include, for example, repurchase transactions.

In transactions in which a Group member neither retains nor transfers substantially all the risks and rewards of ownership of a financial asset and it retains control over the asset, the Group member continues to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of transferred asset. A Group member derecognizes a financial liability when it is settled, cancelled or ceded.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Financial Assets and Liabilities (continued)

(iv) Offsetting

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, a Group member has a legal right to set off the recognized amounts and it intends either to settle on a net basis or to realized the asset and settle the liability simultaneously.

Income and expenses are presented on net basis only when permitted under IFRSs, or for gains and losses arising from a group of similar transactions such as in the trading activities of the Group members.

(v) Amortized Cost Measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount, less any impairment.

(vi) Fair Value Measurement

The fair values stated for financial instruments are the amounts for which the asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

When available, the Group members measure the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

If a market for a financial instrument is not active, the Group members establish fair value using a valuation technique. Valuation techniques include using recent arm's length transactions between knowledgeable, willing parties (if available), reference to the current fair value of other instruments that are substantially the same, discounted cash flow analyses and other optional models. The chosen valuation technique makes maximum use of market inputs, relies as little as possible on estimates specific to a Group member, incorporates all factors that market participants would consider in setting a price, and is consistent with accepted economic methodologies for pricing financial instruments. Inputs to valuation techniques reasonably represent market expectations and measures of the risk-return factors inherent in the financial instrument. The Group member calibrates valuation techniques and tests them for validity using prices from observable current market transactions in the same instrument or based on other available observable market data.

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price, i.e. the fair value of the consideration given or received, unless the fair value of that instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e., without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When transaction price provides the best evidence of fair value at initial recognition, the financial instrument is initially measured at the transaction price and any difference between this price and the value initially obtained from a valuation model is subsequently recognized in profit or loss depending on the individual facts and circumstances of the transaction but not later than when the valuation is supported wholly by observable market data or the transaction is closed out.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Financial Assets and Liabilities (continued)

(vi) Fair Value Measurement (continued)

Any difference between the fair value at initial recognition and the amount that would be determined at that date using a valuation technique in a situation in which the valuation is dependent on unobservable parameters is not recognized in profit or loss immediately but is recognized over the life of the instrument on an appropriate basis or when the instrument is redeemed, transferred or sold, or the fair value becomes observable. Assets and long positions are measured at a bid price, and liabilities and short positions are measured at an asking price. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of a Group member and counterparty where appropriate. Fair value estimates obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties to the extent that a Group member believes a third-party market participant would take them into account in pricing a transaction.

(vii) Identification and Measurement of Impairment

At reporting date the Group members assess whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. A financial asset or a group of financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the assets, and that the loss event has an impact on the future cash flows of the assets that can be estimated reliably.

Objective evidence that financial assets (including equity securities) are impaired can include significant financial difficulty of the borrower or issuer, default or delinquency by a borrower, restructuring of a loan or advance by a bank on terms that a bank would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security, or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults in the group. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

A Group member considers evidence of impairment for loans and receivables and held-to-maturity investment securities at both a specific asset and collective level. All individually significant loans and receivables and held-to-maturity investment securities are assessed for specific impairment. All individually significant loans and receivables and held-to-maturity investment securities found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and receivables and held-to-maturity investment securities that are not individually significant are collectively assessed for impairment by grouping together loans and receivables and held-to-maturity investment securities with similar risk characteristics.

In assessing collective impairment the Group members use statistical modeling of historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical modeling. Default rates, loss rates and the expected timing of future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Financial Assets and Liabilities (continued)

(vii) Identification and Measurement of Impairment (continued)

Impairment losses on assets carried at amortized cost are measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against loans and receivables. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss. Impairment losses on available-for-sale investment securities are recognized by transferring the cumulative loss that has been recognized in other comprehensive income to profit or loss as a reclassification adjustment. The cumulative loss that is reclassified from other comprehensive income to profit or loss is the difference between the acquisition costs, net of any principal repayment and amortization, and the current fair value, less any impairment loss previously recognized in profit or loss. Changes in impairment provisions attributable to time value are reflected as a component of interest income. Movements on provisions for impairment losses attributable to the time value are included as a component of the interest rate.

If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is reversed, with the amount of the reversal recognized in profit or loss. However, any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognized in other comprehensive income.

The Group members write off certain loans and receivables and investment securities when they are determined to be uncollectible (see Note 4.1).

(k) Cash and Cash Equivalents

Cash and cash equivalents include notes and coins on hand, unrestricted balances held with central banks and highly liquid financial assets with original maturities of less than three months, which are subject to insignificant risk of changes in their fair value, and are used by the Group members in the management of their current liquidity.

Cash and cash equivalents are carried at amortized cost in the balance sheet.

(l) Trading Assets and Liabilities

Trading assets and liabilities are those assets and liabilities that the Group members acquire or incur principally for the purpose of selling or repurchasing in the near term, or hold as part of a portfolio that is managed together for short-term profit or position taking.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(l) Trading Assets and Liabilities (continued)

Trading assets and liabilities are initially recognized and subsequently measured at fair value in the balance sheet, with transaction costs directly recognized in profit or loss. All changes in fair value are recognized as part of net trading income in profit or loss. Trading assets were not reclassified subsequent to their initial recognition, except that non-derivative trading assets, other than those designated at fair value through profit or loss upon initial recognition, may have been reclassified out of the fair value through profit or loss, i.e. trading category, if they were no longer held for the purpose of being sold or repurchased in the near term and either of the conditions below were met:

- If the financial asset would have met the definition of loans and receivables (if the financial asset had not been required to be classified as held for trading at initial recognition), then it may be reclassified if the legal entity has the intention and ability to hold the financial asset for the foreseeable future or until maturity.
- If the financial asset would not have met the definition of loans and receivables, then it may be reclassified out of the trading category only in rare circumstances.

Derivatives

Financial derivatives comprise forward and swap transactions. Financial derivatives are initially recognized at cost and are subsequently measured at market value. Market values are ascertained based on quoted prices on an active market, as well as by using different valuation techniques, including discounted cash flows. Financial derivatives are accounted for under assets if their market value is positive, and under liabilities if their market value is negative. Fluctuations in market value of financial assets are reported in the income statement, under net trading income.

(m) Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the Group members do not intend to sell immediately or in the near term. They arise when a bank provides money or services directly to a debtor with no intention of trading the receivable. Loans and receivables comprise loans and receivables to banks and customers. Loans and receivables are initially measured at fair value plus incremental direct transaction costs, and subsequently measured at their amortized cost using the effective interest method.

Approved dinar loans which are hedged using a contractual currency clause linked to the dinar EUR exchange rate, to another foreign currency or consumer price index are converted into dinars at balance sheet date in accordance with the terms of the particular loan agreement. The effects of the currency conversion are reported under trading income and expenses. Loans and receivables are presented net of specific and collective allowances for impairment. Specific and collective allowance, are made against the carrying amount of loans and receivables that are identified as being impaired in order to reduce their value to recoverable amount. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognized in the statement of comprehensive income in impairment charge for credit losses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(n) Investment Securities

Investment securities are initially measured at fair value plus, in case of investment securities not at fair value through profit or loss, incremental direct transaction costs, and subsequently accounted for depending on their classification as either held to maturity, at fair value through profit or loss, or as available for sale.

(i) Held-to-Maturity Financial Assets

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Group members have the positive intention and the ability to hold them to maturity, and which are not designated as at fair value through profit or loss or as available for sale. Held-to-maturity investments are carried at amortized cost using the effective interest method. Any sale or reclassification of a more than insignificant amount of held-to-maturity investments would result in the reclassification of all held-to-maturity investments as available-for-sale, and prevent a Group member from classifying investment securities as held-to-maturity for the current and the following two financial years. However, sales and reclassifications in any of the following circumstances would not trigger a reclassification:

- sales or reclassifications that are so close to maturity that changes in the market rate of interest would not have a significant effect on the financial asset's fair value,
- sales or reclassifications after a Group member has collected substantially all of the asset's original principal, and
- sales or reclassifications attributable to non-recurring isolated events beyond a Group member's control that could not have been reasonably anticipated.

(ii) Financial Assets at Fair Value through Profit or Loss

Financial assets at fair value through profit or loss are financial assets that are classified as held for trading or upon initial recognition are designated by a Group member as at fair value through profit or loss. Financial assets at fair value through profit or loss are those that a Group member acquired or incurred principally for the purpose of selling or repurchasing it in the near term, part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking or derivatives.

(iii) Available-for-Sale Financial Assets and Equity Investments

Available-for-sale financial assets are those non-derivative financial assets that are designated as available for sale or are not classified as another category of financial asset. Available-for-sale investments are those intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices.

Unless there is an active market for financial assets available for sale, these are measured at cost. All other available-for-sale investments are carried at fair value.

Interest income is recognized in profit or loss using the effective interest method. Dividend income is recognized in profit or loss when a Group member becomes entitled to the dividend. Foreign exchange gains or losses on available-for-sale debt security investments are recognized in profit or loss.

Other fair value changes are recognized in other comprehensive income until the investment is sold or impaired, whereupon the cumulative gains and losses previously recognized in other comprehensive income are reclassified to profit or loss as a reclassification adjustment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(n) Investment Securities (continued)

When a decline in the fair value of an available-for-sale financial asset has been recognized in other comprehensive income and there is objective evidence that the asset is impaired (long and continuing decline in the fair value in the period longer than twelve months, as well as decline above 30% of cost), as well as the cumulative loss that had been recognized in equity shall be reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognized (IAS 39.59, IAS 39.67 and IAS 39.68).

A non-derivative financial asset may be reclassified from the available-for-sale category to the loans and receivables category if it otherwise would have met the definition of loans and receivables and if a Group member has the intention and ability to hold that financial assets for the foreseeable future or until maturity.

(o) Property and Equipment

(i) Recognition and Measurement

Items of property and equipment are initially measured at cost or purchase price.

Cost includes expenditures that are directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

Following initial recognition items of equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Following initial recognition, property is measured at valuation amount which represents its fair value at valuation date less subsequent accumulated depreciation and subsequent accumulated impairment losses. Valuation is performed regularly in order to ensure that net book value does not differ significantly from reported amounts that would result from using the fair value approach at the end of reporting period.

When parts of an item of property or equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

The gain or loss on disposal of an item of property and equipment is determined by comparing the proceeds from disposal with the carrying amount of the item or property and equipment, and are recognized net within other income in profit or loss.

(ii) Subsequent Costs

The cost of replacing part of an item of property or equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to a Group member and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property and equipment are recognized in profit or loss as incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) *Property and Equipment (continued)*(iii) *Depreciation*

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property and equipment since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term and their useful lives.

The estimated depreciation rates for the current and comparative periods were as follows:

Asset	Estimated useful life (in years)	Rate %
Buildings	40	2.50%
Computer equipment	4 - 5	20%-25%
Furniture and other equipment	5 - 15	6.7%-50%
Leasehold improvements	1 - 23	4.25%-86.2%

Depreciation methods, useful lives and residual values are reassessed at each financial year-end and adjusted if appropriate.

Maintenance costs for assets are recognized in the profit or loss in the period when occurred.

(p) *Intangible Assets*

Intangible assets acquired are stated at purchase price or cost less accumulated amortization and accumulated impairment losses.

Subsequent expenditure on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

Amortization is recognized in profit or loss on a straight-line basis over the estimated useful life of the intangible asset, from the date that it is available for use since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life of intangible assets is 3 to 7 years and amortization rates used range between 14.29% and 33.34%.

Amortization methods, useful lives and residual values are reassessed at each financial year-end and adjusted if appropriate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(q) Investment Property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment property is initially measured at cost. Cost of acquired investment property comprises the purchase price and all expenses that can be directly attributed to the acquisition of the asset.

For subsequent measurement of investment property the Group members use the cost model, such that investment property is measured at cost less accumulated depreciation and impairment losses.

Estimated useful life of investment property amounts to 40 years, while the depreciation rate used amounts to 2.5%. Depreciation is provided for in profit or loss on a straight line basis over the useful life of a given item of property, given that it reflects best the expected exploitation of the useful economic value embodied in the asset.

(r) Assets Acquired in Lieu of Debt collection and Assets Held for Sale

Assets are classified as held for sale if the carrying amounts thereof can be recovered primarily through a sales transaction and not through further usage.

Non-current assets held for sale are measured at the lower of the carrying value or fair value less costs to sell. If such an asset is not sold within a year from the initial recognition date, its carrying value is adjusted to the fair value as well as in instances of impairment, when the recoverable amount of the asset decreases below its carrying value.

Collection of receivables through acquisition of movable and immovable assets, in instances of receivables securitized with mortgages, trust deeds or pledge liens or another type of collateral, is performed based on a court ruling and/or purchase and sale contract arising from out-of-court settlement or auction purchase.

Movable and immovable assets acquired in lieu of debt collection are recognized in the books of account as inventories of assets acquired in lieu of debt collection intended for sale within a year.

Such assets are initially measured at the lower of:

- gross amount of receivables underlying the acquisition of assets, and
- appraised value of such assets (as per appraisal not older than a year) less costs to sell.

Exceptionally, when assets are acquired as per court ruling in the amount lower than the gross amount of receivables claims, such assets are measured at the value stated in the relevant court ruling. In addition, an appraisal of the acquired assets is performed as soon as possible, at the end of the current year at the latest.

After the initial recognition, the carrying values of assets acquired in lieu of debt collection are adjusted to their fair values as well as in instances of impairment of assets, when their carrying values drop below their recoverable amounts. To assets acquired in lieu of debt collection and non-current assets held for sale, the Group members implement the procedures of mandatory fair value assessment by qualified experts before the sale. The fair value assessment is made by a qualified external expert if an existing appraised value is over a year old in order to arrive at the framework for sale pricing.

Based on the qualified experts' assessments of the value of assets acquired in lieu of debt collection and assets held for sale, the carrying values of such assets are adjusted to their fair values in accordance with the requirements of IFRS 5.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(s) Leases

The Group members appear as lessees in leasing agreements. The Group members classify leases as financial leasing when the lease agreement stipulates that the basic risks and benefits of ownership over the leased assets are transferred to the lessee. All other leasing agreements are classified as operating leases.

Lease agreements that relate to lease of office space in which the Group members' branches are located primarily relate to operating leases. All payments made during the year based on operating leases are reported as an expense in the statement of comprehensive income on a straight line basis over the duration of the lease period.

Assets that are held based on a finance lease agreement are recognized as the Group members' assets at the lower of their fair value or the present value of minimum lease payments specified at the start of the lease agreement. The corresponding liability toward the lessor is reported in the statement of financial position as a finance lease liability. Lease payments are apportioned between the finance expense and the reduction of the outstanding finance lease liability, such that a constant interest rate is achieved on the outstanding portion of the liability. The financial expense is reported directly as a period expense.

(t) Impairment of Non-Financial Assets

The carrying amounts of the Group's non-financial assets, other than investment property and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. An impairment loss is recognized if the carrying amount of an asset exceeds its estimated recoverable amount.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognized in profit or loss.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(u) Deposits, Borrowings and Subordinated Liabilities

Deposits, debt securities, borrowings and subordinated liabilities are the Group's main sources of financing.

The Group members classify capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

Deposits, debt securities, borrowings and subordinated liabilities are initially measured at fair value increased for all directly attributable transaction costs, while they are subsequently measured at amortized cost using the effective interest rate method.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(v) Provisions

A provision is recognized if, as a result of a past event, a Group member has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(w) Employment Benefits

In accordance with regulatory requirements, the Group members are obligated to pay contributions to tax authorities and to various state social security funds, which guarantee social security insurance benefits to employees. These obligations involve the payment of taxes and contributions on behalf of the employee, by the employer, in an amount computed by applying the specific, legally-prescribed rates. The Group members are also legally obligated to withhold contributions from gross salaries to employees, and on behalf of its employees, to transfer the withheld portions directly to government funds. These taxes and contributions payable on behalf of the employee and employer are charged to personnel expenses in the period in which they arise.

In accordance with the Labor Law, the Group members are under obligation to pay their vesting employees retirement benefits. Long-term liabilities for retirement benefit provisions upon fulfillment of retirement criteria reported as of December 31, 2016 represent the present value of the expected future payments to employees as determined by actuarial assessment using assumptions disclosed in Note 36(b).

(x) Financial Guarantees

Financial guarantees are contracts that require the Bank to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Financial guarantee liabilities are initially recognized at their fair value, and the initial fair value is amortized over the life of the financial guarantee. The guarantee liability is subsequently carried at the higher of this amortized amount and the present value of any expected payment (when a payment under the guarantee has become probable). Financial guarantees are reported under off-balance sheet items.

(y) Equity and Reserves

The Group's equity consists of founders' capital, shares of subsequent issues, share premium, reserves, fair value (revaluation) reserves, retained earnings and current year's profit.

The Group's equity is comprised of funds invested by the Parent Bank's founders and minority founder of Komercijalna banka a.d., Banja Luka in pecuniary form. A founder cannot withdraw funds invested in the Group's equity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(z) Earnings per Share

The Parent Bank presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Parent Bank by the weighted average number of ordinary shares outstanding during the period.

Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders for the effects of all dilutive preferred shares and dividing it by the weighted average number of ordinary shares outstanding.

(zz) Segment Reporting

An operating segment is a component of the Group - a Group member - that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components, whose operating results are reviewed regularly by Parent Bank's management (being the chief operating decision maker) to make decisions about resources allocated to each segment and assess its performance, and for which separate audited financial statements are available.

In accordance with IFRS 8 "Operating Segments", the Group discloses information on performance of segments, thus providing the users of the financial statements with additional information on income and expenses arising from its key business activities (Note 6.2).

Upon determining operating segments, the Bank uses the following:

- a) different products and services offered by the segments
- b) separate segment management, and
- c) internal reporting structure

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.1. Comparative data and correction of prior year error

As a result of adjustment of error, the Parent Bank has changed the opening balance and result for 2015, and made adjustments as follows:

Overview of completed correction in the Balance Sheet	In RSD '000		
	Before correction	Correction	After correction
Securities available for sale	127,,173,,383	1,583,025	128,756,408
TOTAL ASSETS	127,173,383	1,583,025	128,756,408
Deferred tax liabilities	23,592	201,713	225,305
Reserve-tax effects		(201,713)	(201,713)
Loss	(6,299,631)	238,273	(6,061,358)
Reserves-effect of transfer of premiums and discounts	27,542,265	(238,273)	27,303,992
Reserves-change in methodology		1,583,025	1,583,025
TOTAL EQUITY AND LIABILITIES	21,242,634	1,583,025	22,825,659

Overview of completed correction in the Income Statement	In RSD '000		
	Before correction	Correction	After correction
Interest income	18,856,309	238,273	19,094,582
Net loss	(6,299,631)	238,273	(6,061,358)

Based on the requirements of IAS 39 Financial instruments: recognition and measurement, IFRS 13 Fair value measurement and IAS 8-Accounting policies, changes in accounting estimates and errors, the Bank has amended the methodology of the fair value calculation of securities available for sale, predominantly government bonds issued by the Republic of Serbia.

Previous methodology for valuation of available for sale securities

For treasury bills of the Republic of Serbia issued in euros, the yield curve was constructed on the basis of executive rates from the last primary trading auctions while for the coupon bonds issued in euros yield curve was constructed based on Euribor interest rates with maturities of 1d to 12m and based on swap rates for EUR over one year with the addition of risk premium that is equal to the difference between the coupon rate and the risk free interest rate whose tenor corresponded to the duration of the bond.

In the case of treasury bills of the Republic of Serbia issued in dinars, yield curve was constructed on the basis of Belibor interest rates with maturities of 1d to 6m and executive rates from the last auctions from primary trading for maturity longer than 6 months while in case of coupon bonds of the Republic of Serbia issued in dinars the yield curve considered risk premium that is equal to:

- ❖ Fixed margin in case of bonds whose coupons depends on the reference rate of the National bank of Serbia increased by fixed spread;
- ❖ The difference between the coupon rate and the risk free interest rate in case of bonds with fixed coupons

The fair value of the securities was determined by discounting each cash flow with different discount factors of the corresponding tenors of the yield curve.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.1. Comparative data and correction of prior year error (continued)

Reasons for the change and main assumptions of the new methodology

The previous methodology for fair valuation of securities has not taken into account the circumstances on the local market of securities neither the requirements of the prevailing accounting standards:

- ❖ The Bank was using different discount rates for different cash flows generated on one security while one discount rate for discounting all future cash flows on security should be used according to the standard, being the principal and interest, since one discount rate (which corresponds to maturity of security) reflects all risks related to that security.
- ❖ For treasury bills the Bank was using discount rate of zero since prime market, according to the Bank, for these securities was not developed leading to the situation where fair value was equaled to their pair value.
- ❖ For coupons bonds in euros, risk free interest rates were euribor/swap rates while rates inherent to domestic market (rates applicable for euro dominated bonds issued in domestic market from the government) should be used.

Main assumptions of the new methodology were (i) basing the valuation model on actual conditions on the domestic market and (ii) changed parameters for determining the uniform discount rate of future cash flows for individual securities.

Amended methodology for valuation of available for sale securities

In the amended methodology, for determining the fair value of the treasury bills and coupon bonds of the Republic of Serbia issued in euros, the yield curve is constructed from the last available (in relation to valuation date) executive rates of securities issued in euros from primary trading for tenors that greater or equal to one year and the last available executive rates from the secondary trading of securities whose residual maturity is less than one year.

In the case of securities issued by the Republic of Serbia in dinars, improved methodology for the calculation of fair value is based on the yield curve based on the Belibor interest rates for maturities of 1d to 6m and executive rates from the last available auctions of primary trading for tenors over 6 months.

The fair value of the securities was determined by discounting each individual cash flow with discount rate whose tenor corresponds to the remaining maturity of the security.

The effects of changes in the methodology for calculating the fair value has been accounted for both in the current year and retrospective adjustment has been applied and the effects on prior year has been disclosed in the Available for sale (Note 21) and equity-retained earnings and revaluation reserves (Note 35).

By the correction of previous reporting period the Parent bank has applied the requirements of the IAS 8 which refers to the retrospective restatements of data due to correction of prior year error and disclosure for each line item of the financial statements to which it applies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT

The Banking Group has recognized risk management process as the key element of business management given that risk exposure is an inseparable part of banking and is managed through a process of continued identification, measurement, monitoring, minimizing and setting of risk limits and through other types of control, including reporting in accordance with adopted strategies and policies.

The Group has established a comprehensive and reliable risk management system that includes: risk management strategies, policies and procedures, appropriate organizational structure, effective and efficient process of managing all risk it is exposed to, adequate system of internal controls adequate information system and process of internal capital adequacy assessment.

Risk management process involves clear determining and documenting risk profile and adjusting risk profile to the Group's aptitude to assume risk in accordance with the adopted strategies and policies.

The basic objectives that the Group set for the risk management system within its risk management and capital management strategies are the following: minimizing the negative effects on financial result and equity within acceptable risk levels, maintaining the required level of capital adequacy, developing the Group's activities in accordance with business opportunities and market development with a view to gain competitive advantage.

Taking into account the changes of regulations of the National Bank of Serbia and the need for further improvement of risk management, during 2016 the Group carried out organizational and procedural changes to the risk management function (with special emphasis on the process of prevention and management of potentially risky loans and bad assets), as well as changes in internal procedures for governing risk management. By changing Strategy and risk management policies, the criteria for determining the basic principles of managing bad assets, as well as the highest acceptable level of non-performing loans for the Group have been defined.

The Group implements Basel II standards and permanently monitors all the announcement and amendments to the effective regulations, analyses the risk levels and undertakes measures for timely reconciliation of its operations with newly enacted regulations in accordance with the risk level acceptable to the Group. Through the clearly defined process of introducing new products, the Group analyses the influence of all new services and products on the future risk exposures in order to optimize its revenues and losses based on the estimated risk as well as to minimize all potential adverse effects on the Group's financial result.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2016

4. RISK MANAGEMENT (continued)

Risk Management System

The risk management system is governed by the following internal enactments:

- Risk Management Strategy and Capital Management Strategy and Plan;
- Risk Management Policies;
- Risk Management Procedures;
- Methodologies for Managing Individual Risks; and
- Other enactments.

Risk Management Strategy sets out:

- Long-term objectives, defined by the Banking Group's business policy and strategy and its attitude to assume risk determined in accordance with those objectives;
- Basic principles of risk assumption and management;
- Basic principles of the process of internal assessment of the Group's capital adequacy; and
- Overview and definitions of all types of risk the Group is exposed to or may be exposed to.

The Banking Group specified the basic principles of risk management for meeting its long-term objectives:

- Organizing operation of a separate organizational unit for risk management;
- Functional and organizational separation of risk management activities from the regular operating activities of the Group;
- Comprehensive risk management;
- Effective risk management;
- Cyclic risk management;
- Developing risk management as a strategic orientation; and
- Risk management as a part of corporate culture.

Policies for managing certain risk types define the following:

- Manner of organizing risk management processes within the Banking Group and clear division of personnel responsibilities in all stages of the process;
- Manner of assessing the Banking Group's risk profile and methodology for identifying, measuring and assessing risks;
- Manners of risk monitoring and control and establishing the system of limits, i.e. types of limits the Banking Group uses as well as their structure;
- Measures for risk mitigation and rules for implementation thereof;
- Manner and methodology for implementing the process of internal assessment of the Banking Group's capital adequacy;
- Principles of the system of internal controls; functioning; and
- Framework and frequency for stress testing and procedure in instances of unfavorable test results.

Procedures for managing certain risk types define, in greater detail, the process of managing risks and competencies and responsibilities of all organizational units of the Parent Bank and Banking Group members in the risk management system.

Individual methodologies further and in more detail prescribe methods and approaches used in the risk management system.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

Risk Management System (continued)

In 2016 members of the Group made the harmonization of internal documents (procedures and methodology) with modifications of regulations of the National Bank of Serbia, which relate to the management of credit risks, throughout comprehensiveness of definition of risky loans, termination of reprogramming and changes the definitions and methods of classification of restructured loans, as well as the implementation of regulations allowing relaxation of the calculated level of required reserves for potential losses, based on proactive management and reducing the level of problematic loans. In addition, the criteria for the materially significant loans that are individually assessed, the estimated value of collateral, appraisers, haircut, a change in the dynamics of the valuation of commercial real estate for NPL and annual analysis of movements in market value, as a requirement for the adequacy of the collateral, has been more closely defined.

In addition, the procedure of the prevention of corporate risky loans was adopted, in order to identify potentially risky (Watch List-a) clients, to mitigate credit risk of potentially risky clients and taking measures and actions in order to protect the interests of the Bank and to prevent adverse effects on the financial result and equity.

Competencies

The Board of Directors is authorized and responsible for establishing a uniform risk management system and for monitoring such system, adopting policies and procedures for risk management and capital management strategy, establishment of internal control system, supervision of the work of the Executive Board and execution of the process of internal capital adequacy assessment.

The Executive Board is authorized and responsible for implementation of risk management strategy and policies, capital management strategy adoption and efficiency analysis of risk management procedure implementation, which define processes of identifying, measuring, minimizing, monitoring, controlling reporting risk the Parent Bank and the Group are exposed to. Also, the Executive Committee analyzes the risk management system, and at least once quarterly reports to the Board on the level of risk exposure and risk management and decide, with the prior approval of the Board of Directors, of any increase in the Group's exposure to an entity related to the Group and shall notify the Board of Directors.

The Audit Committee is authorized and responsible for continued monitoring of application and adequate implementation of risk management policies and procedures, and for implementing the internal control system of the Parent Bank and the Group. The Audit Committee at least monthly reports to the Board of Directors on its activities, irregularities, and propose how they will be removed.

The Asset and Liability Committee (ALCO) is authorized and responsible for monitoring the risk exposure resulting from the structure of the Group member's receivables, payables and off-balance sheet items, and proposes measures for managing interest and liquidity risks. Each Group member has its own Asset and Liability Committee.

The Credit Committee decides on loan requests in accordance with the Parent Bank's internal acts, it analyzes the Parent Bank's exposure to credit, interest rate and currency risk, it analyzes the credit portfolio and implements the recommendations of the internal audit under the Committee's remit, and also suggests adequate measures to the Parent Bank's Executive Board. Each Group member has its own Credit Committee, which makes decisions within its remit and limits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

Competencies (continued)

The Work-out Committee of the Parent Bank is authorized and responsible for managing risk weighted loans; it makes decisions on the write-off of risk-weighted loans up to set limits of authorization and recommends write-off of loans to the Executive Board and Board of Directors of the Parent Bank in instances of loans in excess of its limits of authorization. Each Group member has its own Credit Committee to make decisions on risk-weighted loans.

The Risk Management Organizational Unit defines and proposes for adoption the risk management strategy, policies, procedures and methodologies, identifies, measures, mitigates, monitors, controls and reports on the risks the Parent Bank and the Group are exposed to. It is also in charge of developing models and methodologies of risk management and reporting to the competent Banking Group's bodies.

The Parent Bank's Treasury is responsible for managing assets and liquidity, as well as assets and liabilities on the Group level. It also participates in the liquidity risk management and interest rate and currency risk management.

The Internal Audit Division is responsible for continued monitoring of implementation of risk management policies and procedures on the Group level, and tests the adequacy of procedures and the Group members' compliance with them. The Internal Audit reports its findings and recommendations to the Audit Committee and the Board of Directors.

The Compliance Control Division is obligated to identify and assess at least annually compliance risks of the Parent Bank and Group members against the Annual Business Plan adopted by the Board of Directors and proposes risk management plans, of which it prepares a report and submits it to the Executive Board and Board for Monitoring of the Parent Bank's Operation. This report is adopted by the Executive Board and submitted to the Board of Directors for their information. The Banking Group members have organizational units for risk management, asset management and internal audit.

Risk Management Process

The Banking Group regularly measures and evaluates risks identified in its operations. Measurement entails applying qualitative and quantitative measurement methods and models that enable detection of changes in risk profile and assessment of new risks.

For all risks identified the Banking Group determines their significance based on as comprehensive assessment of risks in the Banking Group's particular operations, products, activities and processes.

Risk alleviation or mitigation involves risk diversification, transfer, minimization and or avoidance; the Banking Group performs risk mitigation in accordance with its risk profile and risk appetite.

Risk monitoring and control is based on limits that are set by the Banking Group. They in turn depend on business strategy and the business environment, as well as on the level of risk that the Group is ready to accept.

Risk management reports are regularly submitted to: the Board of Directors, Executive Board, Audit Committee, ALCO and Credit Committee, and they contain all the information required for risk assessment and reaching of conclusions about the risks. Group members report to the Parent Bank's risk management organizational unit on a monthly basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

Risk Types

In its regular course of business, the Banking Group is particularly exposed to the following risks: credit risk and risks associated with the credit risk, liquidity risk, market risk, operational risks, investment risk, exposure risk and country risk as well as to all other risks that may arise from the Banking Group's regular operations.

4.1. Credit Risk

Credit risk represents the risk of negative effects on the Bank's financial result and capital arising from debtors' inability to settle the matured liabilities to the Bank.

The Group members have defined criteria for loan approval and rescheduling and restructuring of receivables prescribed by its loan approval procedures and methodology. Loans are approved depending on the target market, borrower characteristics and loan purpose.

Prior to loan approval, each Group member assesses the creditworthiness of the borrower based on internally defined criteria as a primary and offered collateral as a secondary source of collection/loan repayment. Based on the identified and measured credit risk level (assessed financial situation and credit worthiness of the borrower, value and legal security of the credit hedge and other relevant factors), and independent risk assessment, the Group member's competent bodies enact a loan approval decision in accordance with the defined decision making system.

In decision making the principle of double control, the so-called "four eyes principle," is observed which ensures that there is always a party that proposes and a party that approves a particular loan/investment.

According to the volume, type and complexity of its operations, the Group has organized the credit risk management process and clearly delineated employee responsibilities in all stages of the process.

The organizational model of credit risk management system enables adequate communication, information exchange and collaboration at all organizational levels within the Group as well as clear operational and organizational separation of functions for independent risk management and supporting activities on one hand and the activities of risk assumption on the other, i.e. segregation of duties, competencies and responsibilities. The Group members have also established an adequate information system for full coverage of persons involved in credit risk management system and appropriate management reporting.

The level of credit risk exposure acceptable to the Group is in line with the defined risk management strategy and depends on the Group's portfolio structure based on which is limited negative effects on the Bank's financial result and capital adequacy.

The basic principles of credit risk management are as follows:

- Managing credit risk at the individual loan level as well as the Group's entire portfolio level;
- Maintaining credit risk level that minimizes the negative effects on the Group's financial result and capital;
- Loan rating according to risk;
- Operating in accordance with best banking practices of loan approval;
- Ensuring adequate credit risk management controls.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

In their effort to manage credit risk all Group members seek to do business with customers that have good credit rating and to acquire appropriate collaterals to secure repayments. The Group members assess creditworthiness of each customer upon the submission of a loan application and regularly monitor their debtors, loans and collaterals, in order to be able to undertake appropriate activities for the purpose of collecting their receivables.

All Group members perform quantitative and/or qualitative measurement, i.e. assessment of the identified credit risk. The credit risk measurement process is based on measuring risk level of individual loans and investments based on the internally adopted rating system.

The rating system is not merely an instrument for encasement individual decisions and assessing risk levels of individual investments; it is also a basis for portfolio analysis, support in loan approval and loan impairment procedure as well as in estimating provisions against losses per off-balance sheet items for the purpose of loan and investment ranking by risk level and stating realistic value of receivables. Internal rating system is subject to regular review and improvements.

For adequate and efficient management of the risks they are exposed to, the Parent Bank and Group members also comply with the principles prescribed by their respective central banks, which require classification of loans based on the prescribed criteria as well as calculation of the reserve for estimated credit risk losses.

Alleviating credit risk entails maintaining the risk at the level acceptable to the Group's risk profile, i.e. maintaining acceptable quality level of the Group's loan portfolio.

Basic credit risk alleviating techniques are:

- Exposure limits - concentration risk;
- Investment diversification; and
- Collaterals.

The exposure limits per individual debtor are based on the assessment of the debtor's creditworthiness, whereas the exposure limits at the portfolio level are focused on restricting exposure concentration within the portfolio. The Group members continuously control credit risk movements within a defined risk profile. In instances of exceeding the internal limits, the Group members submit explanations thereof and propose measures and action plans, while the Parent Bank notifies the Executive Board on the aforesaid excess of limits. Group members are obligated to inform the Parent Bank on any extraordinary circumstances in their operations that may occur due to the adverse local market trends, political and economic crises and the like.

Concentration risk includes: large exposure (exposure to a single entity or a group of related entities and the Group's related parties), group exposures with the same or similar risk factors such as industry sectors, types of products, geographic areas and the like, country risk and credit risk hedges.

The Parent Bank performs continuous control and monitoring of the exposure risk at the Group's portfolio level, within regulatory prescribed limits. In instances of exceeding the prescribed limits, the Parent Bank determines the causes thereof, informs the Executive Board thereof and proposes to the Parent Bank's Executive Board protective measures against the exposure risk.

At the Group level, investment diversification is aimed at alleviating credit risk through reduction portfolio concentrations in certain segments of assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

Monitoring loan quality at the individual debtor level is primarily based on obtaining updated information on the financial situation and creditworthiness of the debtor as well as on the market value of collateral, whereas credit risk monitoring at the portfolio level is performed through identification of changes at the level of client groups with certain preset levels of risk, investment, collateral and required reserves for estimated and unexpected losses for the purpose of establishing management of the asset balances and quality. The Group members also continuously monitor and review adequacy of the process of loan rating and classification into risk groups according to the extent of recoverability.

Credit risk control entails a process of continuous reconciling business operations with the defined system of limits, both on a daily and monthly bases, as well as under conditions of large credit exposure approaching the upper risk profile limit, i.e. upon introduction of new products and business activities.

As a hedge against counterparty default risk, the Group members undertake the following steps in respect to collection of due receivables: loan rescheduling or restructuring; out-of-court settlement; seizure of goods or properties in order to collect receivables; sale and/or assignment of receivables; execution of agreements with interested third parties; and instigation of court proceedings and other measures.

If the undertaken measures for regulating collection, i.e. enforced collection and court proceedings fail to provide expected results, i.e. when receivables cannot be collected in full, the Group initiates write-off of the remaining receivables or transfer from the balance sheet to off balance sheet.

Apart from credit risk exposure, the Group also has off-balance sheet exposures (various types of payment and performance guarantees, acceptances and letters of credit) based on which the Group has contingent liabilities to make payments on behalf of third parties. For off-balance sheet exposures the Group uses the same control processes and procedures that are used for credit risk.

Credit risk reporting includes internal and external reporting systems executed on a monthly basis according to a preset schedule and in conformity with the defined reporting system:

- The Group members report to the Parent Bank on a monthly basis;
- The Parent Bank reports on a consolidation basis, semi-annually and annually.

Identification of problematic and restructured claims

The Group members monitor the quality of the portfolio based on the identification and analysis of early warning signals of clients. Warning signs are monitored on a regular time basis and based on analysis of those signs, customers are classified into the category Standard, Potentially risky (Watch list) and NPL clients (clients with problematic claims).

Restructured non-problematic customers are classified into the category of potentially risky customers, while restructured problematic clients are classified into the category of clients with problematic claims.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

Identification of problematic and restructured claims (continued)

The purpose of monitoring the quality of the portfolio is to prevent the direct transfer of clients in the Standard category of clients into the category of clients with problematic claims without prior identification of clients as potentially risky and without implementation of preventive actions against risky placements, i.e. mitigation and reduction of credit risk through the implementation of appropriate strategies and action plans. Potentially risky clients are monitored more frequently compared to standard clients and if further increase in credit risk is determined, clients are classified into the category of clients with problematic claims.

Problematic claims include all the claims that are late in settling obligations over 90 days, claims for which based on assessed financial position is estimated that the borrower will not be able to meet its obligations in full without taking into account the possibility of realization of credit protection instruments (regardless of whether it is late in settlement of liabilities), claims for which the impairment loss is determined on an individual basis, as well as contingent liabilities arising from guarantees issued (if there is likely to be activated), and irrevocable commitments (if activating them would lead to new receivables for which the Group considers it would not be collected in full without the realization of collateral). Problematic receivables include all receivables from debtors, if one claim is classified in the group of problematic claims.

Restructuring of the claims is approval of concessions, due to financial difficulties of the debtor, regarding the repayment of the individual claims which would not be approved to the debtor if he was not in these difficulties, regardless of whether it has matured obligations, whether the claim is impaired or the default status has occurred. The restructuring is implemented in one of the following ways: by changing the conditions under which the claim arose, particularly if the subsequently agreed repayment terms are more favorable compared to those originally agreed (reduction of interest rates, write-off of part of the principal and/or interest, change the due date, etc.) as well as the refinancing of receivables. In addition, receivables that are classified in the category of restructured debts are those for which:

- The change in the contractual terms of repayment is implemented, and those receivables that, in the absence of such changes, would be classified as problematic,
- The change in the contractual terms of repayment debts which led to a complete or partial write-off in a materially significant amount is implemented,
- The Group member has activated the contractual clauses on restructuring on which the repayment conditions are changing due to the occurrence of certain events (embedded clauses) against the debtor whose claim has been already classified in a group of problematic receivables, or would have been so classified that are not activated this clause,
- If the debtor has, at the same time a new claim was approved (or over a short period before or after the approval), made a payment on the basis of other claims of the Group (or other legal entity to which the ceded claim against the debtor), which was classified or fulfilled the requirements to be classified in group problematic or, in the absence of new claims would be classified in the above group, i.e. fulfilled the requirements.

The Group members regularly monitor the measures taken to restructure the risky placements and control the timing of taking these measures. Monitoring of the measures taken, or the realization of the same, such as settlement of due liabilities, is carried out on a daily basis. The semi-annual monitoring of restructured business clients is performed regularly every 6 months or more often if necessary. Analysis of financial statements, analysis of indebtedness, verification of adequacy of collaterals and monitoring overall operations are the key points of above mentioned monitoring.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

Identification of problematic and restructured claims (continued)

Restructured claim which is classified into a group of problematic claims is, after the expiry of one year from the date of its restructuring, classified in the group of claims which are not considered problematic if the following conditions are met:

- Impairment amount of restructured claim has not been determined and the status of default has not occurred;
- During the past 12 months the payments were made on time or with a delay not greater than 30 days, in accordance with the changed conditions of repayment;
- Based on the analysis of the financial condition and creditworthiness of the client, it is estimated that it will be able to settle its obligations in full in accordance with the changed conditions of repayment.

Downgrade Risk

The quality of the Group's assets is measured by the level of exposure to individual risk categories according to internal rating system criteria. The internal rating system focuses on quantitative and qualitative parameters for assigning customer ratings. The rating scale consists of 5 risk categories that are subdivided into 17 subcategories. Different exposures to the same borrower are grouped in the same credit rating category irrespective of the specificities of different loan types.

The Group uses varying credit rating models depending on the borrower type. Credit rating is calculated on monthly basis based on the qualitative and quantitative parameters and timely and regular liability settlement.

A low level of risk implies doing business with customers with a high credit rating (risk rating categories 1 and 2), increased level of risk implies doing business with customers with operating difficulties that could have a negative impact on the settlement of liabilities (risk rating category 3), and a high level of risk characterizes customers with negative operating results and poor credit rating (risk rating categories 4 and 5).

The Group protects itself against downgrade risk through continuous monitoring of customers' business operations and by identifying changes that could arise through: deterioration of a borrower's financial standing, delays in repayment and changes in the business environment, as well as by securing appropriate collaterals.

Risk of Change in Value of Assets

Allowance for impairment of loans is intended to ensure reasonable, cautious and timely registering of losses on loan impairment, as well as to intervene in respect of contingent liabilities with a view to protect the Bank in the period when the loss occurs and is definitely confirmed (realized), due to inability to collect contracted amounts or through outflow of assets to settle contingent liabilities.

Allowance for impairment of loans and provisions are made when there is justification and objective evidence of impairment arising as the result of events that occurred after initial recognition of a loan, that have a negative effect on future cash flows associated with a loan.

Key elements in assessing impairment of loans are as follows: overdue payments on principal or interest, cash flow difficulties on the part of the borrower, the borrower's credit rating deterioration or changes in the initial terms of contract etc.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

Risk of Change in Value of Assets

Allowance for impairment is based on estimated future cash flows from the borrower's business operations or collateral foreclosure if it is assessed that a loan can be realistically settled from such assets.

The Group members assess allowance for impairment of receivables on an individual and on a group basis.

Individual Assessment

Each Group member assesses impairment of each individually significant loan with default status (risky placement, risk category 4 according to internal rating system which has default status and risk category 5) and considers the financial position of the loan beneficiary, sustainability of its business plan, its ability to improve performance in the event of financial difficulties, income projections, availability of other financial support and collateral value which can be realized, as well as scheduling of expected cash flows. In the event of new information coming to light that significantly alters the customer's creditworthiness, value of collateral and likelihood that liabilities toward the Group member will be settled, ad hoc assessment of loan impairment is performed.

The threshold of materiality, the Group members determine based on the analysis of value structure of its portfolio by customer and product.

Allowance for impairment on an individual basis is calculated if there is objective evidence of impairment that is a result of one or more events that occurred after the initial recognition of the financial asset, and if there is a measurable reduction in future cash flows.

The following is considered objective evidence indicating the need for loan impairment:

- Financial condition or creditworthiness of the debtor indicates significant problems in his business and the Group members have estimated that he will not be able to fulfill its obligations in full,
- Failure to meet contractual obligations, delinquency in payment of interest/principal and other contractual provisions (evidence of failure or delay in payment),
- Information about the blockade of the debtor's account,
- Concessions provided by the Group members to the debtor due to economic or legal reasons (evidence of an approved landfill charge, restructured receivables and other approved concessions due to financial difficulties in the business of the debtor),
- Significant difficulties in the business of the debtor (evidence of bankruptcy, liquidation, financial reorganization of the debtor, reduced rating of the debtor, a significant fall in revenue, a significant reduction in capital, damage due to force majeure that the debtor has suffered, loss of license, change of management, etc.),
- Internal and external factors that may affect the collectability of receivables (evidence of adverse changes in business conditions in some industries which are reflected on the financial ability of the debtor, evidence of macroeconomic trends: the decline in demand, falling prices, budget deficit, operations in times of crisis or recession, etc.),
- Local economic factors that cause collection problems.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

Risk of Change in Value of Assets

Evidence can be documented by the analysis in Watch process, by information about the increased level of risk borrowers, reports of the meetings that were held with the debtor, reports on conducted monitoring of collateral clients, reports of forced collection and days of blockade, reports on loans in default and other information that the Group has.

When there is objective evidence, the amount of the impairment is estimated by discounting the future cash flows from business. The calculation of the expected future cash flows also includes resources from the activation of collateral (secondary sources), if it is assessed that there is no objective evidence that the loan can be settled from the expected future cash flows from business and will realistically be settled from collaterals.

Group-Level Assessment

Impairment is assessed on a group basis for loans that are not individually significant and for individually significant loans that do not have the status of default, for loans for which the calculation on an individual basis has not determined the amount of impairment, as well as on basis of fees and other receivables that have elements for reducing the present value.

Group assessment is carried out by groups with similar characteristics in terms of credit risk which are formed on the basis of internally prescribed methodologies (credit groups by types of clients and loans), based on the internal rating system, on a monthly basis.

Group impairment percentages are calculated based on migration of risk rating categories in default status per type of borrower or product.

Appreciating the specifics in doing business with clients, different migration matrixes are established for legal entities, for individuals by type of product, banks and entrepreneurs.

Impairment of loans decreases the value of loans and is recognized as an expense in the income statement.

Assessment of Provisions for Probable Losses on Off-Balance Sheet Items

Assessment of provisions for losses on off-balance sheet items (contingent liabilities) is performed when it is estimated that it is fairly certain that an outflow of assets will be required to settle contingent liabilities. The Group members also perform determination of probable loss for unused commitments, for which it have not contracted unconditionally and without notice, the possibility of cancellation of contractual obligations. When calculating provisions for unused commitments, the Group members use the conversion factor (CCF), by which the book value of unused commitments is adjusted.

In assessing provisions for contingent losses on off-balance sheet items, funds obtained by activating collaterals are recognized if it is completely certain that cash outflows for contingent liabilities will be settled from collaterals.

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

Means of protection against credit risk (collaterals)

In order to protect against credit risk exposure, a common practice that Group members use, in addition to regular monitoring of the borrower's business is the provision of security instruments (collateral), which ensure the collection of receivables and minimize credit risk. The amount and type of collateral depends on the assessment of credit risk.

As a standard collaterals Group members accept contractual authorizations and bills from clients, while as an additional instrument, depending on the assessment of credit risk, and the types of loans, following instruments can be agreed:

- For commercial loans - pledge over movable and immovable assets (mortgages), deposits, bank, corporate and government guarantees, sureties, pledge over securities, stocks and receivables;
- For retail loans - mortgages on immovable properties, deposits, sureties, insurance from National corporation for insurance of housing loans and more

When assessing property or pledges over movable property, the Group members provide expert and independent assessment of the value of real estate by authorized appraiser, to reduce the potential risk of unrealistic valuation to a minimum. The premises, supplies, equipment and other movable property which is the subject of the pledge must be insured by an insurance company acceptable to the Group members, and the insurance policies must be endorsed in favor of the Group members.

In order to protect against changes in the market value of the collateral (mortgage, pledge, securities, etc.), the estimated value of collateral is adjusted for a defined percentage (haircut) depending on the type of collateral and the location, which is regularly reviewed and revised. In this way, the Group members protect itself from potential losses arising from the inability to collect receivables from collateral.

The correction factor (haircut) is the difference between the estimated value of collateral and the proceeds that can be realized by selling the collateral in the process of collection. Haircut reduces estimated market value of any collateral to the expected value that will be charged for its implementation in the future, and taking into account the volatility of the market value and the possibility of realizing cash outflows based on activation fee and sales (court costs, tax costs charged to seller, consultants and advertising costs and other costs), the expected decline in market value since the assessment time until the time of the planned realization, and the inherent uncertainty in determining the value.

The Group members pay attention to regular assessment/valuation of collateral. For performing loans (PE), mortgages on residential and commercial property are assessed at least once every three years by a licensed appraiser. For non-performing loans (NPE), a mortgage on a residential property is assessed at least once every three years, mortgages on office buildings (offices, shops, warehouses, building land with and without planning permission, agricultural land, etc.) at least once every 18 months, a mortgage on the industrial facilities are evaluated at least once a year (12 months), by a certified appraiser. Securities are assessed on a monthly basis, for all loans.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

Means of protection against credit risk (collaterals) (continued)

Regular monitoring of real estate involves checking the value of real estate on the basis of available data and information, the comparison of the value of the real estate from portfolio with movements in the market value in the Group members country market (realized sales, supply and demand) by the regions listed in the catalog of collateral, the use of statistical models, etc. For all the business real estates, the Group members conduct verification of value at least once a year, and for housing and other real estate at least once every three years.

The value of the collateral and the tendency of movement of it's value, the Group members monitor and update to reduce the potential risk of unrealistic valuation to a minimum, and, if necessary, it may request additional collateral in accordance with the agreement. Collateral represent a secondary source of collection of receivables.

4.1.1. Maximum Credit Risk Exposure

Maximum credit risk exposure as of December 31, 2016 and 2015 is presented in the table below without taking into account any collateral or any other sort of credit risk hedge. The stated values are presented in gross and net carrying amounts (after impairment effects).

Maximum Credit Risk Exposure before Collateral or any Other Improvements

	31.12.2016.		In thousand RSD 31.12.2015.	
	Gross	Net	Gross	Net
I. Assets	472,812,097	428,827,608	464,618,477	416,461,558

Impaired Loans and Receivables

Impaired loans and receivables are those for which the Group members have determined the existence of objective evidence of impairment and does not expect them to be collected in full amounts of principal and interest matured pursuant to the relevant loan agreements. Loans and receivables are impaired on both an individual and a group basis. Loans and receivables that are 100% impaired are in the individually impaired loans and receivables.

The significant increase in allowance for credit losses in 2016 is mostly a result of the Parent bank's deteriorating quality of the loan portfolio, the new problematic loans, lower values of mortgage and beginning of bankruptcy proceedings.

Receivables Matured but not Impaired

Loans and receivables matured but not impaired represent those Parent bank's loans and receivables where there is default in settling liabilities for contractually agreed interest or principal outstanding (the report shows the entire receivable amount as matured for any matured portion of principal or interest). The Parent Bank believes that it is not appropriate to make impairment allowance for such receivables given that there is certainty of collection (receivables from Republic of Serbia). In 2016., the Group members did not have matured and not impaired placements.

Receivables not Matured and not Impaired

Loans and receivables not matured and not impaired are those determined as ineligible for impairment allowance given the probability of default status and certainty of collection by the Group members (loans and receivables due from the Republic of Serbia and the Ministry of Finance of the Republic of Srpska).

The Bank followed the Guideline o disclosure of information on the asset of the assets of National Bank of Serbia in preparation of the credit risk tables. The form and content of the tables are derived from the related Guideline.

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

4.1.4. Restructured receivables (continued)

Measures implemented by the Bank during the restructuring of loans

The Group members carry out various restructuring measures, depending on the client's needs, respecting the interests of the group with a complete understanding of the business, financial and collateral position of client.

The measures most often taken by the Group members during the restructuring of loans are:

- Extension of the maturity date, which is usually accompanied also by adjusting the interest rate that is adjusted to the financial situation of clients,
- The introduction of a grace period or moratorium on settlement of liabilities within a specified period,
- Capitalization of maturity, if there are outstanding liabilities due to date, those are in the process of restructuring returned to claims not due, i.e. new initial balance of claim is formed.
- Refinancing of receivables - in justified cases it is possible to carry out refinancing of receivables from other creditors in order to improve the Group's position (collateral or financial, by approving more favorable conditions of payment)
- Partial write-off - in the past the group members have not implemented a partial write-offs during the restructuring, but in the coming period, the Group members will carefully consider the justification of such measure in the restructuring process if it is reasonable, in order to reduce the debtor's obligations to the real level that can be repaid from cash flow, which will certainly be analysed comparatively, and collateral position of the group with the screening of collection options, to enable the Bank to collect its claim to the maximum possible amount.
- converting debt into equity - also not done in the past, but in the coming period will be done by an individual assessment of the justification of implementing this measure, if it is the only possibility of conducting the restructuring of the Bank, i.e. the collection of receivables.

Those measures can be implemented individually or by implementing more measures depending on each individual restructuring process.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2016

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

4.1.5. Concentration Risk

The Bank manages concentration risk by establishing a system of limits to the exposures with the same or similar risk factors (industry sectors/activities, product types, geographic regions, single entities or groups of related entities, collaterals...). Establishment of appropriate exposure limits is the basis for concentration risk control with the aim of loan portfolio diversification.

Available-for-sale financial assets represent financial instruments which are intended to be held over an indefinite time period and which may be sold for liquidity purposes, due to the movements in interest rates, exchange rates or prices of capital. They mostly comprise of Treasury bills and bonds issued by the Republic of Serbia, Republic of Srpska, Republic of Montenegro, local municipalities and bonds of other banks. Available-for-sale assets are initially measured at cost, and on a quarterly basis fair value thereof is determined based on the market prices for securities traded in active stock exchange (mark to market) and on internally developed valuation models (mark to model) that used in instances when for certain financial instruments independent sources of market information are not available, and are based on discounting of cash flows with yield curve which respects market conditions. At the end of 2016, the Parent bank and Group members have improved internal methodology for valuation of securities (mark to model) available for sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.1. Credit Risk (continued)

4.1.7. Credit Risk Hedges (Collaterals)

In next tables, the value of collateral is shown at the fair value of the collateral, so that the value of the collateral is shown only up to the amount of gross loans (in case the value of the collateral exceeds the loan amount). When the value of the collateral is lower than the value of gross placements shall disclose the value of the collateral.

The value of collateral and guarantees received in order to mitigate exposure to credit risk arising from loans to customers is shown in the following table:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.2. Liquidity Risk

Liquidity risk represents the risk of negative effects on the Group's financial result and equity resulting from the Group's difficulty or inability to settle its matured liabilities in instances of insufficient liquidity reserves and inability to cover for unexpected outflows and other liabilities.

The Group operates in accordance with the basic principles of liquidity, maintaining a sufficient level of funds to cover liabilities incurred in the short term, i.e. it observes the principle of solvency by establishing the optimal financial leverage and sufficient liquidity reserves which do not compromise realization of the projected return on equity.

Liquidity risk is manifest as the mismatch of the inflow of assets on one end and the maturities of liabilities on the other, including the possibility of delays in expected inflows as well as that of unexpected outflows. Liquidity risk may be manifest as the risk related to sources of funds and market liquidity risk. The problem of liquidity in respect of the sources of funds relates to the structure of liabilities and is expressed through potential significant share of unstable and short-term sources of funds or their concentration. On the other hand, liquidity risk is reflected in reserves deficiency and difficulty or inability to obtain liquid assets at reasonable market prices.

The Group has established appropriate organizational structure, which allows for clear differentiation between the process of assuming and the process of managing liquidity risk. The Asset and Liability Management Committee and Liquidity Committee have the most significant role therein as well as other competent boards/committees, whose decisions can impact the Group's exposure to this risk.

In order to minimize liquidity risk, the Group:

- Diversifies sources of assets in respect to their currencies and maturities;
- Forms and maintains sufficient liquidity reserves;
- Manages monetary funds;
- Monitors future cash flows and liquidity levels on a daily basis;
- Limits principal sources of credit risk with most significant impact on liquidity; and
- Defines and periodically tests Plans for Liquidity Management in Crisis Situations.

The liquidity management process comprises identification, measurement, minimizing, monitoring, control and liquidity risk reporting.

Identifying liquidity risk in a comprehensive and timely manner the causes that lead to the occurrence of liquidity risk determines current liquidity risk exposure as well as liquidity risk exposure arising from new business products and activities.

Measurement and assessment of liquidity risk in the Group is performed through quantitative and/or qualitative assessment of identified liquidity risk by using the following techniques:

- GAP analysis;
- Ratio analysis; and
- Stress test.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.2. Liquidity Risk (continued)

Minimizing liquidity risk consists of maintaining this risk at a level that is acceptable to the Group's risk profile through definition of the system of exposure limits including both internal and statutory limits and timely implementation of measures to mitigate the risk and operation within the set above mentioned limits.

Control and monitoring of liquidity risk includes the process of monitoring compliance with internally defined limits, and monitoring of defined measures for reducing the Group's exposure to liquidity risk. Liquidity risk control involves the control at all liquidity risk management levels as well as the independent control system implemented by the group's organizational units responsible for internal audit and compliance monitoring.

Liquidity risk reporting consists of internal and external reporting systems and is performed on a daily basis and a set schedule according to the defined system.

The Group's operations are reconciled daily with legally prescribed liquidity ratio as follows: minimum 0.8 for one working day; minimum 0.9 for no longer than three consecutive working days and minimum 1 as the average liquidity ratio for all working days in a month. The Group also monitors compliance with the regulatory prescribed rigid/cash liquidity ratio as follows: minimum 0.5 for one working day; minimum 0.6 for no longer than three consecutive working days and minimum 0.7 as the average liquidity ratio for all working days in a month.

Compliance with liquidity ratio limits externally prescribed:

	Liquidity Ratio		Rigid/Cash Liquidity Ratio	
	2016.	2015.	2016.	2015.
As at December 31	2.88	2.71	2.55	2.46
Average for the period	2.97	3.09	2.55	2.78
Maximum for the period	3.56	3.93	3.12	3.57
Minimum for the period	1.91	1.90	1.69	1.68

During 2016 the Group's liquidity ratio and cash liquidity ratio were both well above the prescribed limits.

The Group sets internal limits, based on the internal reporting on liquidity GAP for all balance sheet components.

Compliance with last day liquidity ratio limits internally defined:

	Limits	2016.	2015.
GAP up to 1 month / Total assets	Max (10%)	6.50%	5.06%
Cumulative GAP up to 3 months / Total assets	Max (20%)	9.61%	6.27%

In addition, the Group limits and coordinates its operations with the limits defined for maturity per major foreign currencies.

The report on the maturity structure of monetary assets and liabilities includes monetary balance sheet items distributed according to maturities outstanding, i.e. the conservative assumption was used that all transaction and demand deposits will be withdrawn within one month.

The Group collects deposits of corporate and retail customers which commonly have shorter maturity periods and can be withdrawn at the client request. Short-term nature of such deposits increases the group's liquidity risk and requires active liquidity risk management and constant monitoring of market trends.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.2. Liquidity Risk (continued)

In near term, the Group manages liquidity risk by monitoring and controlling items in all major currencies in order to identify the needs for additional funding in a timely manner in case of maturities of certain items, i.e. in the long term, the Group plans the structure of its funding sources and investments in order to provide sufficient stable funding sources and liquidity reserves.

The Group's management believes that adequate diversification of the deposit portfolio per number and type of depositors as well as historical experience provide a solid basis for existence of a stable and long-term deposit base, i.e. no significant outflow of funds is expected thereof. The Group regularly tests the Plans for Liquidity Management in Crisis Situations which are intended for testing potential crisis, checks the survival period and solvency, availability of funding for liabilities that could arise and assesses the support under the assumed crisis conditions.

Undiscounted cash flows from monetary assets and monetary liabilities as of December 31, 2016

As of December 31, 2015	<u>(74,161,804)</u>	<u>(1,096,399)</u>	<u>(2,107,565)</u>	<u>123,665,814</u>	<u>47,226,514</u>	<u>93,526,559</u>

Undiscounted cash flows arising from the items of monetary assets and monetary liabilities include future cash flows per balance sheet items and future interest. In the case of transaction deposits and demand deposits, which, observing the conservative approach, are categorized into deposits with maturities of up to a month, the undiscounted cash flows include only the cash flows from the debt principal outstanding.

Market Risk

Market risk represents the possibility of occurrence of negative effects on the Group's financial result and equity due to changes in market variables and comprises interest rate risk, currency risk for all business operations and price risk for all items in the trading book.

The Group is exposed to price risk, interest rate risk, currency risk, counterparty risk and risk of settlement related to trading book items. The trading book contains balance sheet and off-balance sheet assets and liabilities related to financial instruments held for trading or to hedge other financial instruments that are maintained in the trading book.

The Group has established appropriate organizational structure, which allows for clear differentiation between the process of assuming market risks and the process of managing those risks. The Asset and Liability Management Committee (ALCO) and Investment Committee have the most significant role therein as well as other competent boards/committees, whose decisions can impact the Group's exposure to this risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.3. Interest Risk

Interest rate risk represents the probability of negative effects on the Group's financial result and equity through items of the banking general ledger due to adverse interest rate fluctuations. The exposure to this risk depends on the relation between the interest rate sensitive assets and liabilities.

The Group manages the following types of interest rate risk:

- Repricing risk of temporal mismatch between maturity and repricing;
- Yield curve risk - to which the Group is exposed due to changes in yield curve shape;
- Basis risk - to which the Group is exposed due to different reference interest rates for interest rate sensitive items with similar maturity or repricing characteristics; and
- Optionality risk - to which the Group is exposed due to contractually agreed optional terms - loans with an option of early repayment, deposits with an option of early withdrawal, etc.

The basic objective of interest rate risk management is maintaining the acceptable level of interest rate risk exposure from the aspect of the effect on the financial result, by conducting adequate policy of matching periods of interest rate repricing, matching adequate sources to investments per interest rate type and maturity, as well as projecting movements in the yield curve in both foreign and domestic markets. Primarily, the Group manages the internal yield margin through the prices of loans and deposits, focusing on the interest rate margin.

The Group particularly considers the effects of interest rate changes and changes in the structure of interest-bearing assets and liabilities from the perspective of maturity, interest rate repricing and currency structure and manages the effect thereof on the economic value of equity.

The process of interest rate risk management consists of identification, measurement, minimizing, monitoring, control and interest rate risk reporting.

Identification of interest rate risk consists of comprehensive and timely identification of the causes and factors that lead to the occurrence of interest rate risk, which includes determining current interest rate risk exposure, as well as interest rate risk exposure arising from new business products and activities.

Measurement and assessment of interest rate risk at the Group is performed through quantitative and/or qualitative assessment of identified interest rate risk by using the following techniques:

- GAP analysis;
- Ratio analysis;
- Duration;
- Economic value of equity; and
- Stress test.

Minimizing interest rate risk means maintaining this risk at a level that is acceptable for the Group's risk profile. Alleviating interest rate risk refers to the process of defining the systems of limited exposure of the Group to the interest rate risk and implementing measures for interest rate risk mitigation.

Control and monitoring of interest rate risk entails the process of monitoring compliance with the established system of limits as well as monitoring defined measures for reducing the Group's exposure to the interest rate risk. Control of interest rate risk refers to control on all management levels as well as an independent control system implemented by the organizational units responsible for internal audit and compliance monitoring.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.3. Interest Risk (continued)

Interest rate risk reporting consists of an internal system of reporting to competent boards/committees and the Group's interest rate risk management bodies.

Internal limits are determined based on the internal report on the interest rate GAP, which includes all the balance sheet items.

Compliance with internally defined interest rate risk limits at the last day was as follows:

	<u>Limits</u>	<u>2016.</u>	<u>2015.</u>
Relative GAP	Max 15%	1.02%	1.15%
Mismatch ratio	0.75 - 1.25	1.01	1.01

During 2016 the Group's interest rate risk ratios were within internally prescribed limits.

Compliance with internally defined limits of economic value of equity:

	<u>2016.</u>	<u>2015.</u>
As at December 31	3.64%	5.18%
Average for the year	4.40%	7.27%
Maximum for the year	5.16%	9.35%
Minimum for the year	3.64%	5.18%
Limit	<u>20%</u>	<u>20%</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.3. Interest Risk (continued)

Interest rate risk GAP report of monetary sub-balance includes monetary balance items distributed according to the shorter of period of interest rate repricing and maturity outstanding. In accordance with the aforesaid, the conservative assumption is used that all transactions and demand deposits will be withdrawn within one month.

The Group's management believes that appropriate matching of items per interest rate type and interest rate repricing period constitutes a solid prerequisite for existence with required financial results achieved and maintenance of economic value of equity.

The Risk of Changes in Interest Rates

In addition to the GAP analysis, interest rate risk management also entails monitoring the sensitivity of the Group's assets and liabilities to different scenarios of changes in interest rates. The Group performs regular interest rate risk stress testing to assess the estimated impact of the changes in the key factors on the Group's interest rate risk.

In scenario modelling, in addition to the changes in interest rates, particular consideration is given to the impact of early deposit withdrawal and early loan repayment, which the Group estimates based on historical trends and expert estimates. The Group estimated trends with regard to transaction deposits, demand deposits and savings deposits of retail customers using time series statistical modeling.

The standard scenario entails parallel changes (increases and decreases) in the interest rate by 100 basis points (b.p.). The Group's sensitivity analysis, i.e. impact on the Group's financial performance of the increase/decrease in the interest rates assuming symmetrical movement in yield curves and constant financial position is presented in the table below:

	<i>In thousand RSD</i>	
	Parallel increases by 100 b.p.	Parallel decreases by 100 b.p.
2016		
As at December 31	506,708	(506,708)

Minimum for the year	326,445	(326,445)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.4. Currency Risk

Currency risk represents the possibility of negative effects on the Group's financial result and equity due to fluctuations in exchange rates between currencies, fluctuations in the domestic currency with respect to foreign currencies or changes in the value of gold and other precious metals. All items in the banking book and the trading book that are denominated in a foreign currency and gold, including dinar items indexed to foreign currency clause are exposed to currency risk.

In order to minimize the currency risk exposure, the Group diversifies the currency structure of its portfolio and currency structure of liabilities, reconciling open positions in certain currencies pursuant to the principles of maturity transformation.

The Group has established appropriate organizational structure, which allows for clear differentiation between the process of assuming currency risk and the process of managing currency risk. The Asset and Liability Management Committee has the most significant role therein as well as other competent boards/committees, whose decisions can impact the Group's exposure to this risk.

The process of currency risk management entails identifying, measuring, minimizing, monitoring, control and currency risk reporting.

In identifying currency risks, the Group identifies in a comprehensive and timely manner the causes that lead to emergence of currency risk and includes the determination of current currency risk exposure, as well as currency risk exposure resulting from new business products and activities.

Measurement and assessment of currency risk in the Group is performed through quantitative and/or qualitative assessment of identified currency risk by using the following techniques:

- GAP analysis and currency risk ratio;
- VaR analysis;
- Stress test;
- Back testing.

Relieving foreign currency risk entails maintenance of risk at an acceptable level for the Group's risk profile through the establishment of a transparent system of limits and defining measures used to mitigate foreign currency risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.4. Currency Risk (continued)

Control and monitoring of the currency risk consists of observation and supervision of compliance with internally and externally defined limits as well as monitoring of defined and implemented measures. Continuous monitoring and control of foreign currency risk during the day ensures timely undertaking measures for the purpose of maintaining the currency risk within defined limits. Foreign currency risk control means control at all management levels as well as independent control system implemented by the organizational units responsible for internal audit and compliance monitoring.

Reporting on currency risk includes internal and external reporting systems. It is performed on a daily basis.

The Group reconciles its business operations with the prescribed foreign currency risk ratio, which represents the ratio between the total net foreign currency balance and the position of gold relative to the Group's regulatory capital.

Breakdown of the total currency risk balance and legally defined currency risk ratio at December 31:

	<u>2016.</u>	<u>2015.</u>
Total currency risk balance	6,153,467	6,126,044
Currency risk ratio	<u>11.86%</u>	<u>13.77%,</u>
Legally-defined limit	<u>20%</u>	<u>20%</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.5. Ten-Day VaR

The Group also conducts currency risk stress testing to estimate the potential effects of specific events and/or changes in more than one financial variable on the Group's financial result, capital and the currency risk ratio.

The VaR represents the highest possible loss in the Group's portfolio during a specified period with a predefined confidence interval. The Bank calculates a one day and a ten day VaR, with a 99% confidence interval for foreign currency positions (currency VaR). In order to estimate the regulatory capital adequacy requirements regarding currency risk, the Group calculates the VaR by using the generalized autoregressive-conditional heteroskedastic (GARCH) model for which it did not request approval from the National Bank of Serbia.

Currency VaR is calculated for foreign currency items as well as currency clause-indexed RSD items in both the banking book and trading book.

The breakdown of ten-day VaR with confidence interval of 99% for 2016 and 2015 is presented in the table below:

	In thousand RSD			
	As of December 31	Average	Maximum	Minimum
2016.				
Currency risk	17,477	31,003	79,538	10,576
2015.				
Currency risk	55,129	36,590	187,775	10,250

4.6. Operational Risk

The Bank members of the Group monitors operational risk events daily and manages operating risks. For the purpose of efficient operational risk monitoring, the Bank members of the Group appoints employees who are in charge of operational risk with the objective of monitoring operational risk in its every organizational part, where such employees are responsible for accuracy and timeliness of information about all operational risk events that occur in their organizational unit, as well as for keeping records about all such events in the operational risk database. The organizational part of the Bank member of the Group which is responsible for risk management monitors and reports operational risks.

Measurement and assessment of operational risk at the Group is done through quantitative and/or qualitative assessment of identified operational risk. The Bank member of the Group measures operational risk exposure through event records, self-assessment and stress testing. Self-assessment consists of assessment of risk exposure by organizational units based on the roadmap for identifying operating risks, through measurement of potential ranges and frequencies of events that can result in losses, identification of levels of control that business areas must maintain over these risks and measures of improvement. Stress test represents an operational risk management technique which is used to assess potential effects of specific events and/or changes in several financial variables on the exposure to operational risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.6. Operational Risk (continued)

The Group cannot eliminate all operational risks, but by introducing a rigorous framework of control, monitoring and response to potential risks it is capable of managing these risks. The Group takes measures in order to relieve operational risks and ensure proactive response to events potentially creating operational risks through continued monitoring of all activities, application of adequate and reliable information system and by applying project approach orientation, the implementation of which helps improve the business practice and optimize the Group's business processes.

Through reliable reporting on the implementation of measures undertaken to mitigate operational risks, the Group has established a system for monitoring the activities undertaken by the Group's organizational parts in order to reduce arising operational risks. The Group assess the risk of entrusting third parties with activities related to the Group's operations and based on the service contracts executed with such third parties which clearly define terms, rights, obligations and responsibilities of the contracting parties.

With the objective of smooth and continued operation of all significant systems and processes in the Group, and to limit losses that could be incurred in extraordinary circumstances, the Group adopted the Business Continuity Plan, in order to ensure the restoration and recovery of the information technology systems in the event of interruption or stoppage of operations, the Group adopted the Disaster Recovery Plan.

4.7. Investment Risks

The Group's investment risk relates to the risk of investing in other entities and investment properties. The Group's investments in a non-financial sector entity cannot exceed 10% of the Group's equity, whereby such investments entail investments through which the Group acquires equity interest or shares in a non-financial sector entity. The total Group's investment in non-financial sector entities and Group's own fixed assets cannot exceed 60% of the Group's equity, but this restriction does not apply to the acquisition of shares for further trading and sales thereof within six months from the acquisition date.

4.8. Exposure Risk

Large exposures of the Group to a single entity or a group of related entities, including Group's related parties, are exposures amounting to over 10% of the Group's capital.

In its operations, the Group takes care of the compliance with statutory exposure limits:

- Exposure to a single entity or a group of related entities cannot exceed 25% of the Group's equity;
- The aggregate amount (sum) of the Group's large exposures cannot exceed 400% of the Group's equity.

Defined exposure limits to a single entity or a group of related entities also relate to entities associated to the Group.

The Group's exposure to a single party or a group of related parties, as well as exposure to the Group's own related parties, were within the prescribed limits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.9. Country Risk

Country risk relates to the risk of the country of origin of the entity the Group is exposed to, i.e. the possibility of negative effects on the Group's financial result and equity due to inability to collect receivables from abroad and is caused by political, economic and social conditions in the borrower's country of origin. Country risk includes the following risks:

- Political and economic risk relates to the likelihood of losses due to the inability to collect the Group's receivables because of deterioration in macroeconomic stability, due to limitations prescribed by government regulations or due to other structural changes in the economy of the given country;
- Transfer risk relates to the probability of losses due to the inability to collect receivables in a currency which is not the official currency in the borrower's country of origin, due to limitations to liability settlement toward creditors from other countries in specific currency that is predetermined by the official state regulations and bylaws of state and other bodies of the borrower's country of origin.

The Group management of country risk is made per individual loans and receivables and at the Group's portfolio level. Measurement of exposure of an individual receivable to country risk is based on the country rating of the Group's borrower's country of origin as defined by internationally recognized agencies, while measurement of portfolio exposure to country risk is based on setting limits to exposure in terms of a percentage of the Group's equity, depending on the internal country rating category. The Group measures and controls portfolio exposure to country risk by grouping receivables by default level of risk of the borrower countries of origin.

For the purpose of adequate country risk control, the Group defines exposure limits individually per borrower country of origin.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2016

4. RISK MANAGEMENT (continued)

4.10. Fair Value of Financial Assets and Liabilities

Breakdown of carrying values and fair values of financial assets and liabilities other than measured at fair value

	31.12.2016					In thousand RSD 31.12.2015	
	Carrying value	Fair value	Level 1	Level 2	Level 3	Carrying value	Fair value
Financial Assets							
Loans and receivables due from customers	166,401,008	163,877,512	-	-	163,877,512	179,422,656	178,509,257
Financial assets held to maturity	368,999	368,999	-	-	368,999	109,306	109,306
Financial Liabilities							
Deposits and other liabilities due to customers	345,135,959	345,083,711	-	-	345,083,711	319,334,622	319,099,716

Fair values of loans and receivables due from customers are estimated using the discounted cash flows model in instances of loans and receivables at fixed interest rates. Discounts rates are based on the current market interest rates applied to instruments offered under similar terms to borrowers with similar credit ratings. In addition, liabilities due to customers with defined maturities and contracted at fixed interest rates are discounted taking into account the prevailing terms according to the deposit types, terms and maturities.

Loans that are no longer approved and cannot be approved (loans indexed to CHF) are discounted at the same interest rates. In addition, loans approved at fixed interest rates subsidized by the Government were discounted at the same rate since the Group would not have approved loans at low interest rates had the Government not subsidized portion of the interest rate. All loans and receivables approved at variable interest rates were approved in accordance with the prevailing market terms and the Group's members Business Policy.

Fair values of investment securities held to maturity are estimated using market prices or the discounted cash flows model based on current market interest rates applied to similar product instruments offered. Investment securities held to maturity have all matured resulting in the carrying values being equal to their fair values.

Level 1 includes financial instruments traded in the stock exchange, while Level 2 includes securities whose fair values are estimated using the internally developed models based on the information from the auctions held in the secondary securities market (auctions).

Fair values of assets determined using the prices from the banking market are classified into Level 3.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

4. RISK MANAGEMENT (continued)

4.11. Capital Management

The Group has established a risk management system in accordance with the volume and structure of its business activities and the capital management is aimed at unhindered achievement of the Group's business policy goals.

The calculation of the amount of capital and capital adequacy ratio is reconciled with the Basel II Standards.

The Banking Group manages capital on an ongoing basis in order to:

- Maintain the minimum regulatory capital requirement (EUR 10 million);
- Comply with the prescribed capital adequacy ratio (minimum 12%);
- Maintain customer trust in the safety and stability of operations;
- Realize business and financial plans;
- Support the expected growth of loans and receivables due from customers;
- Ensure optimum future sources of funds and deployment thereof;
- Realize of the dividend policy.

The Bank's Group regulatory capital represents the sum of the core capital and supplementary capital, reduced for deductible items. The capital adequacy ratio represents the Group's capital relative to the sum of credit risk-weighted assets, foreign currency gap and operational risk exposure. Credit risk-weighted assets are determined according to risk weights prescribed for all types of assets. Exposure to operational risk is determined by multiplying the reciprocal value of the prescribed capital adequacy ratio by the capital requirement for operational risk, which represent a three-year average of the product of exposure indicators for all lines of business by the prescribed capital requirement rates for each individual business line. Capital requirement for foreign exchange risk at the level of the banking group is equal to the sum of the individual capital requirements for this risk, all members of the banking group, in which the sum of the net open foreign currency position and absolute open position in gold exceeds 2% of their capital.

Capital adequacy ratio	In thousand RSD	
	2016.	2015.
Core capital	47,588,844	40,641,634
Supplementary capital	4,425,745	4,034,778
Deductible items	(121,681)	(190,945)
Capital	51,892,908	44,485,467
Credit risk-weighted assets	172,570,019	166,568,209
Operational risk exposure	23,173,092	22,226,158
Foreign currency risk exposure	2,720,463	4,167,685
Capital adequacy ratio (minimum 12%)	26.15%	23.05%

In the course of 2016 capital adequacy ratio was in excess of the prescribed regulatory limit of 12%.

4. RISK MANAGEMENT (continued)

4.11. Capital Management (continued)

Through its Capital Management Strategy and Capital Management Plan, the Group ensures maintenance of the level and structure of the internal capital, which adequately supports increase in loans and receivables, future sources of funding and their utilizations, dividend policy and changes in regulatory requirements.

As part of the system of capital management, the Capital Management Plan, includes the following:

- Strategic goals and schedule for realization thereof;
- Manner of organizing the process of available internal capital management;
- Procedures for planning adequate levels of available internal capital;
- Manner of attaining and maintaining adequate levels of available internal capital; and
- The Business Continuity Plan in case of unforeseen events.

The Group continuously implements processes of internal assessment of capital adequacy in accordance with the nature, volume and complexity of its business operations and in compliance with the adopted risk management strategy, individual risk management policies and capital management strategy.

As a documented and continuous process, internal assessment of capital adequacy meets the following criteria:

- it is based on risk identification and measurement;
- it provides comprehensive assessment and monitoring of risks the Group is or may be exposed to;
- it provides adequate level of internally available capital according to the Group's risk profile,
- it is included in the Group's management system and decision making process; and
- it is subject to regular analysis, supervision and review.

Stages of the internal capital adequacy assessment include the following:

- determination of materially significant risks as per qualitative and quantitative criteria;
- calculation of the amounts of internal capital requirements;
- determination of the aggregate internal capital requirement;
- comparison of the following elements:
 - capital to available internal capital;
 - minimum prescribed capital requirements to internal capital requirements for individual risks;
 - sum of the minimum capital requirements to the aggregate internal capital requirement.

5. USE OF ESTIMATES

Management makes estimates and assumptions that affect the reported amounts of assets and liabilities within the reporting period. Estimates and underlying assumptions are continually reviewed and are based on previous experience, as well as on various information available on the day of financial statements preparation, believed to be real and reasonable under the circumstances.

Key Sources of Estimation Uncertainty

Provisions for Credit Losses

Assets accounted for at amortized cost are assessed for impairment on a basis described in accounting policy 3(i) (vii).

The specific counterparty component of the total allowances for impairment applies to financial assets evaluated individually for impairment and is based upon management's best estimate of the present value of the cash flows that are expected to be received. In estimating these cash flows, management makes judgments about counterparty's financial situation and the net realizable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimate of cash flows considered recoverable are independently approved by the Credit Risk function.

Collectively assessed impairment allowances cover credit losses inherent in portfolios of loans and receivables and held-to-maturity investment securities with similar credit risk characteristics when there is objective evidence to suggest that they contain impaired items cannot yet be identified. In assessing the need for collective loss allowances, management considers factors such as credit quality, portfolio size, concentrations and economic factors. In order to estimate the required allowances, assumptions are made to define the way inherent losses are modelled and to determine the required input parameters, based on historical experience and current economic conditions. The accuracy of the allowances depends on the estimates of future cash flows for specific counterparty allowances and the model assumptions and parameters used in determining collective allowances.

Determining Fair Values

The determination of fair value for financial assets and liabilities for which there is no observable market price requires the use of valuation techniques as described in accounting policy 3(i) (vi). For financial instruments that have been traded infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

Critical Accounting Judgments in Applying the Group's Accounting Policies

Critical accounting judgments made in applying the Group's accounting policies include:

Impairment of Investments in Equity Shares

Investments in equity shares are estimated for impairment in accordance with the method described under accounting policies 3(i) (vii) and 3(n).

Valuation of Financial Instruments

The Group's accounting policy on fair value measurement is disclosed in accounting policy 3(i) (vi).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

5. USE OF ESTIMATES (continued)

Critical Accounting Judgments in Applying the Group's Accounting Policies

Group members measure fair values using the following fair value hierarchy that reflects the significance of the inputs used valuation:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs other than quoted prices, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments the Bank determines fair values using valuation techniques.

Valuation techniques include net present value and discounted cash flow models, comparison to similar instruments for which market observable price exist and other valuation models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and other premiums used in estimating discount rates, bond and equity prices, foreign exchange rates, equity and equity index prices and expected price volatilities and correlations. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date, which would have been determined by market participants acting at arm's length.

The Group uses widely recognized valuation models for determining the fair value of common and more simple financial instruments, like interest rate and currency swaps that use only observable market data and require little management judgment and estimation. Observable prices and model inputs are usually available in the market for listed debt and equity securities, exchange traded derivatives and simple over the counter derivatives like interest rate swaps.

Availability of observable market prices and model inputs reduces the need for management judgment and estimation and also reduces the uncertainty associated with determination of fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the future markets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

6. SEGMENT REPORTING

6.1. Strategic segment reporting - Group members

The Parent Bank monitors and discloses business operations by segments using two report models:

- Strategic segment reporting - Group members (Note 6.1.) and
- Operating segment reporting- business lines (Note 6.2.).

Information about the results of each reporting segment are shown below.

The Group has four members which represent strategic organizational units:

Komercijalna banka a.d., Beograd, Serbia, the Parent Bank	Includes credit, depositary and guarantee operations, as well as operations of payment in the country and abroad, operations with securities and other financial instruments
Komercijalna banka a.d., Budva, Montenegro	Includes credit, depositary and guarantee operations, as well as operations of payment in the country and abroad, operations with securities and other financial instruments
Komercijalna banka a.d., Banja Luka, Bosnia and Herzegovina	Includes credit, depositary and guarantee operations, as well as operations of payment in the country and abroad, operations with securities and other financial instruments
KomBank INVEST Društvo za upravljanje investicionim fondom a.d., Beograd, Serbia	Includes management of investment funds operations

The Parent Bank monitors and discloses operations by strategic segments - Group members, within its consolidated financial statements. The Group performs most of its operations in the Republic of Serbia. Subsidiaries are not material to the individual financial statements of the Parent Bank.

The Parent Bank total balance amount to 92.6% of the total balance of the consolidated balance sheet (2015: 93.0%).

Total balance of the Komercijalna banka a.d., Budva, amount to 3.1% of the total consolidated assets (2015: 3.0%), Komercijalna banka a.d., Banja Luka, 4.3% (2015: 4.0%) and KomBank INVEST 0.002% (2015: 0.003%).

The result of a strategic segment is used to measure operating performance, since the Parent Bank's management believes that this information is most relevant for evaluating the results of certain strategic segment in comparison with other legal entities operating within these activities on the local market.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

6. SEGMENT REPORTING (continued)

6.2. Operating segment reports - business lines

The Parent Bank has three operating segments:

- Operations with corporate sector of Parent Bank - Includes loans, deposits and other transactions with legal entities other than banks,
- Operations with retail sector of Parent Bank - Includes loans, deposits and other transactions with retail customers, micro businesses, entrepreneurs and agriculture clients, and
- Investment banking and interbank operations of Parent Bank - Includes transactions with securities and other financial instruments, as well as transactions with banks.

Group members operate as independent entities on their local markets. The results of operations of the Group members are presented in Note 6.1.

Bearing in mind that the Parent Bank accounts for more than 92% of consolidated total assets, for the purposes of reporting by operating segments, it has conducted the changes in methodology of representing business results by segment at the Group level for the years 2016 and 2015. Changing the methodology assumes that the business of dependent Group members is shown in one segment (subsidiaries) and the operations of the Parent Bank (as the dominant member of the Group) is shown separately for the segments of retail, corporate and investment banking and interbank operations. Column "adjustments and consolidation" separately shows amounts for the positions that are consolidated, and the amount of share impairment of the Parent Bank in subsidiary banks.

When considering profitability / results of each segment, other than income and expenses generated from operations with clients, income and expenses from internal relations calculated using transfer prices that are determined based on market prices (net income/expenses from internal relations), have to be included, as well as part of net income / expenses which are reported from operations with subsidiaries by Parent Bank.

Impairment losses had a decisive impact on the result in 2016, which amounted to RSD 13,079,497 thousand (of which the Corporate segment accounted for RSD 11,021,735 thousand).

At the height of result before indirect operating expenses in 2016 significant impact had net losses due to a changes in valuation of fixed assets and investment properties, so the Group recorded a loss from other income and expenses in the amount of RSD 646,899 thousand for the year 2016.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

6. SEGMENT REPORTING (continued)

6.2. Operating segment reports - business lines

When creating segment reports, operating expenses are divided into direct operating expenses (directly controlled by business segments or directly attributable to the business segments) and indirect operating expenses (the amount of these costs is not under the direct control segments or there is not a direct connection to the business segments).

Each business segment is granted with direct operating costs relating to this segment as well as with part of indirect operating expenses (distribution of these costs to segments is performed using the corresponding keys that are used for the allocation of costs of cost centers to profit centers).

Direct operating expenses at the Bank level amounted to RSD 8,235,975 thousand and make up 66.6% of total operating costs. Direct operating costs are mostly comprised of expenses that are directly attributable to the business segments (salaries, rental costs, depreciation costs, marketing and other costs), and a minor part are comprised of expenses that are allocated to the segments based on management decisions.

To the segment of retail banking refer the amount of RSD 5,250,911 thousand of direct costs (63.8% of total direct costs) as a result of large business network and number of employees in the retail sector.

In fiscal 2016, despite a stable level of net interest income and fees, the Bank recorded a negative result before tax in the amount of 6,533,686 thousand RSD as a result of already mentioned high amount of impairment losses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

7. FINANCIAL ASSETS AND LIABILITIES - ACCOUNTING CLASSIFICATION AND FAIR VALUES

The following describes the methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the financial statements:

(ii) Assets for which fair value approximates carrying value

For financial assets and financial liabilities that are highly liquid or having a short term original maturity (less than one year) it is assumed that the carrying amount approximate to their fair value. This assumption is also applied to demand deposits, saving accounts without a specific maturity and variable interest rate financial instruments.

(iii) Fixed rate financial instruments

The fair value of fixed interest rate financial assets and liabilities carried at amortized cost are estimated by comparing market interest rates when they were first recognized with current market rates offered for similar financial instruments. The assessed fair values of assets and liabilities with fixed interest rates mostly correspond to the carrying values thereof given that the interest rates applied do not depart from market interest rates. There are no materially significant departures in this respect.

8. НЕТО ПРИХОДИ ОД КАМАТА

Net interest income includes:

	In RSD '000 For the year ended 31 December	
	2016	2015
Loans and receivables due from banks	374,300	153,987
Loans and receivables due from customers	11,532,107	14,054,825
Central Bank	475,643	667,426
Investment securities	5,552,769	5,654,993
Total interest income	17,934,819	20,531,231
Deposits from and liabilities due to banks	(301,021)	(221,779)
Deposits from and liabilities due to customers	(2,393,200)	(4,365,345)
Borrowings received	(784,265)	(1,104,734)
Total interest expenses	(3,478,486)	(5,691,858)
Net interest income	14,456,333	14,839,373

Total interest income and expenses calculated using the effective interest rate method presented in the table above relate to financial assets and liabilities other than those at fair value through profit or loss.

In accordance with the requirements of IAS 8 in the part of the disclosure of the previous year, comparative data presented last year at the position of interest income from investment securities have been adjusted in the amount of RSD 238,273 thousand. The total net operating income and loss before and after tax have been adjusted for the same amount.

In the statement of cash flows the Bank reports on the cash funds held on the gyro account held with NBS, cash on accounts held with foreign banks, cash funds held on the account with the Central Securities Registry, Depository and Clearing House and cash on hand.

The gyro account balance includes the RSD obligatory reserves, which represent the minimum amount of RSD reserves allocated in accordance with the Decision on Obligatory Reserves Held with the NBS. In accordance with the said Decision, the obligatory RSD reserves are calculated based on the average daily carrying amount of RSD deposits, loans and other RSD liabilities during a single calendar month, using a rate in the range between 0.0% to 5.00%, depending on the maturity of liabilities and their sources, whereby RSD reserve is comprised of: obligatory RSD reserves, 38.00% of RSD equivalent of obligatory reserves in EUR to deposits up to 730 days, and 30.00% of RSD equivalent of obligatory reserves in EUR to deposits over 730 days (Official gazette of RS, no. 135/2014).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

19. CASH AND CASH FUNDS HELD WITH THE CENTRAL BANK (continued)

The Parent Bank (continued)

The National Bank of Serbia pays interest on these RSD reserves in the amount of 1.75% per annum starting from November 18th 2015.

The Bank calculates the obligatory reserves in foreign currency on the 17th day of the month based on the average balance of foreign currency deposits registered in the preceding calendar month. The required reserve in foreign currency is allocated onto a special account held with the National Bank of Serbia and these funds may be drawn as necessary. The Bank is under obligation to maintain the average monthly balance of the allocated foreign currency reserve in the amount of the calculated foreign currency obligatory reserve, where, for the purposes of realizing average daily balance of allocated required reserve, the daily balance on the account of required reserve may be below or above the calculated foreign currency obligatory reserve.

Persuant to the Decision on Amendments to the Decision on Obligatory Reserves held with NBS dated as of December 11, 2015 (Official Gazzete 102/2015), the rates applied in calculation of the obligatory foreign currency reserve were as follows:

- for foreign currency deposits placed up to 730 days the rate of 20% was applied (previously 22%)
- for foreign currency deposits placed for over 730 days the rate of 13% was applied (previously 15%)
- for RSD deposits indexed with currency clause the rate of 100% was applied (previously 50%) regardless of the period of placement

The Bank does not earn interest on mandatory reserves in foreign currency. During 2016 and in accordance with Decision on obligatory reserves held with Central bank, the Bank allocated a portion of its foreign currency reserve to its gyro account.

Other foreign currency cash funds of RSD 23 thousand (2015: RSD 6,075 thousand) entirely relate to the clearing account held with the Central Securities Registry, Depository and Clearing House for trade in securities.

Komercijalna banka a.d., Budva

The obligatory reserves of the Bank as at December 31, 2016 represent the minimum deposits allocated in accordance with the regulations of the Central bank of Montenegro on which the "Decision on Banks' Obligatory Reserves with the Central bank of Montenegro" ("Official Gazette of Montenegro", No. 73/15, 3/16 and 78/15) refer to. Accordingly, the Bank calculates the obligatory reserves on demand deposits and time deposits.

Deposit accounts at depository institutions in Montenegro relate to the obligatory reserves allocated at the rate of 9.5% on the part of the base consisting of demand deposits and deposits with agreed maturity up to one year or 365 days, and at the rate of 8.5% on the part of the base that consists of deposits with agreed maturity over one year, or over 365 days. On deposits with maturity over one year that have a clause on the possibility of cancellation of those deposits in less than 365 days, the rate of 9.5% is applied.

Resources available in order to maintain daily liquidity of the Bank amount to 50%.

As at December 31, 2016, the banks are allowed to withdraw 25% of obligatory reserves and keep them in the form of treasury bills issued by Montenegro. Central Bank pays them a monthly fee of 1% per annum on the amount representing a difference between 50% of the total funds allocated as obligatory reserves and the amount of funds allocated in the form of treasury bills, to maximum of 25% of allocated funds.

The Bank did not use the obligatory reserve funds in 2016.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

19. CASH AND CASH FUNDS HELD WITH THE CENTRAL BANK (continued)

Komercijalna banka a.d., Banja Luka

Cash and cash equivalents include deposited surpluses of liquid funds with the Central Bank of Bosnia and Herzegovina in accordance with the regulations of the Central Bank of Bosnia and Herzegovina.

Obligatory reserves with the Central Bank of Bosnia and Herzegovina represent the minimum reserve of funds in local currency calculated in accordance with the Decision on obligatory reserves with the Central Bank of Bosnia and Herzegovina.

Starting from May 1st 2015, the Central Bank of Bosnia and Herzegovina charges a fee to banks as follows:

- On the amount of obligatory reserves - the average EONIA, which is recorded in the same period on the market decreased by 10 basis points or a minimum zero,
- On the amount higher than obligatory reserves - a zero rate of reimbursement.

Starting from July 1st 2016, the Central Bank of Bosnia and Herzegovina charges a fee to banks as follows:

- On the amount of obligatory reserves - a zero rate of reimbursement,
- On the amount higher than obligatory reserves - reimbursement is calculated at the rate of 50% of the rate applied by European Central Bank on commercial banks' deposits (Deposit Facility Rat).

24.3 Loans and receivables due from retail customers

Short-term RSD and foreign currency loans were approved for periods from 30 days to one year, an interest rates ranging between 2.50% and 17.5% per annum.

Long-term RSD and foreign currency loans were approved for periods from 13 to the maximum of 30 years, at interest rates ranging between 2.50% and 13.95%.

Loans and receivables due from legal entities

Short-term RSD loans were approved for periods up to one year, at interest rates ranging between 0.3% and 1.0% per month. On the other hand, short-term foreign currency loans were approved for periods to one year, at interest rates ranging between 0.125% and 0.65% per month (EUR).

Long-term RSD loans were approved for periods from 18 to 24 months, at interest rates ranging between 1.5% and 6.25% per annum. Finally, long-term foreign currency loans were approved for periods up to 96 months, at interest rates ranging between 1.5% and 11.9% per annum (EUR).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

24. LOANS AND RECEIVABLES DUE FROM CUSTOMERS (continued)

24.3 Loans and receivables due from retail customers (continued)

Risks and Uncertainties

The Group's management recorded provisions for potential credit losses based on all known or anticipated credit risks as of the issue date of the financial statements. The Group's loan portfolio receivables were classified based on the most recent financial information available as well as based on the expected effects of the restructuring processes. If these effects fail to provide possibilities to settle the liabilities due to the Group, the Group's receivables are mostly collateralized by mortgages assigned over property held by debtors, as well as pledges on movables. In the case that the debt recovery actions undertaken by the Group's management are unsuccessful, additional amounts of allowances for impairment and provisions for losses based on the assessed irrecoverability would be required in the forthcoming reporting periods.

Total	6,251,187	6,392,007

Bank has engaged independent appraisers that have, in total, appraised 82 properties, 69 of which are used in business purposes while the remaining 13 are investment properties.

Non-current assets held for sale and properties acquired in lieu of debt collection have not been appraised, since they are valued according to IFRS 5 and Bank's internal guide book, at least once a year. Their fair value is decreased annually according to independent reputable appraiser.

Effects of the conducted appraisals of the assets owned by the Parent Bank:

Based on the Report of the independent appraisers, total negative effect amounted to RSD 538,690 thousand (greater decreases than increases) and it is recognized as:

- Net expense in the income statement for the year ended December 31, 2016 at RSD 597,270 thousand and
- Net increase in the revaluation reserves at 58,580 thousand as follows:

Accumulated effects of property appraisals			
Appraisal	Increase/Decrease	Effect	
		Income statement	Balance sheet
Decrease in value	(746,955)	(629,685)	(117,270)
- Property, plant and equipment	(509,838)	(392,568)	(117,270)
- Investment properties	(237,117)	(237,117)	-
Increase in value	208,265	32,415	175,850
- Property, plant and equipment	208,265	32,415	175,850
Total:	(538,690)	597,270	58,580

In the process of adjustment to the carrying value of property for use for business purposes with their fair value, increase is made in the revaluation reserve in equity, and reduces the income statement or the revaluation reserves if they are formed in previous years for the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

29. OTHER ASSETS (continued)

b) Material values acquired in lieu of debt collection (continued)

During 2016, the Bank sold one property, in Resavska 29, net carrying value shown in the material values acquired in lieu debt collection of RSD 288,314 thousand. Part of this property was accounted as Investment property, RSD 44,568 thousand. Total net carrying value of the property was RSD 332,882 thousand, and it was sold for RSD 326,688 thousand.

Furthermore, during 2016 the Bank sold eight properties thus decreasing the value of the assets acquired in lieu of debt collection by the total of RSD 139,261 thousand (three flats in Novi Beograd, house in Novi Pazar, land in Novi Pazar, Nis, Tutin and Rezevici). The total sales price of the aforesaid properties amounted to RSD 145,294 thousand.

Bank has engaged independent appraisers that have appraised non-current material values acquired in lieu of debt collection, acquired prior the period of twelve months.

	<i>In RSD 000</i>
Effects of property impairment	377,012
Effects of equipment impairment	50,087
TOTAL	427,099

Total negative effect amounted to RSD 427,099 thousand and it was recognized as expense of a period as follows (note 14):

- For properties RSD 354,760 thousand based on lower appraisal market value and RSD 20,237 thousand according to internal act due to Bank's inability to sell the property in the period shorter than 12 months, even though the appraisal value is higher than book value, and finally RSD 2,015 thousand according to internal Bank's decision
- For equipment RSD 50,040 thousand based on lower appraisal market value and RSD 47 thousand according to internal decision.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

30. DEPOSITS AND OTHER LIABILITIES DUE TO BANKS, OTHER FINANCIAL INSTITUTIONS AND THE CENTRAL BANK (continued)

During 2016 foreign currency term deposits placed by banks were deposited at interest rate of 0.01% for CHF and 0.00 to EUR.

Borrowings comprise liabilities arising from foreign lines of credit due to foreign legal entities and extraterritorial organizations which, for the purpose of compiling the balance sheet, are regarded as banks.

Breakdown of long-term borrowings included in aforementioned line "Borrowings" is shown as follows:

	In RSD thousand	
	December 31, 2016.	December 31, 2015.
EFSE	-	5,203,165
GGF	406,224	1,199,233
FMO	-	2,027,102
IFC	-	1,824,391
EBRD	4,586,114	3,301,280
Balance at December 31	4,992,338	13,555,171

Pursuant to the loan agreements executed with the creditors listed in the table above, the Bank is obligated to comply with certain financial covenants until the final repayment of loans obtained. As of December 31, 2016, the Bank was in full compliance with all the contractually defined financial ratios toward the aforelisted foreign creditors.

During 2016, the Parent Bank has repayed a line of credit due to EBRD of RSD 17,143 thousand and made an agreement for a new one, of EUR 30,000 thousand. This line of credit has better credit terms, however, it resulted in total increase in borrowings of RSD 1,284,834 thousand.

Also, during 2016 with new line of credit arrangements with EFSE, FMO and IFC, the Bank has managed to prematurely repay principal of RSD 9,054,658 thousand.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

31. DEPOSITS AND OTHER LIABILITIES DUE TO CUSTOMERS (continued)

Corporate Customer Deposits

RSD demand deposits of corporate customers mostly comprise balances of transaction deposits of companies and other legal entities. In accordance with the Decision on Interest Rates for 2016, these deposits were interest-bearing. Depending on the average monthly balances on these transaction accounts of the customers, the interest rate is 0.10% per annum if average monthly balance is higher than RSD 50 thousand.

Foreign currency demand deposits of non-resident customers are non-interest bearing, except for specific business arrangements.

In 2016 short-term RSD deposits of corporate customers were placed at annual interest rates ranging between : the key policy rate less 4 percentage points for deposits placed from 3 to 14 days to key policy rate less 2.05 percentage points for deposits placed up to a year per annum with minimum RSD 300 thousand deposited. Short-term deposits of entrepreneurs were placed at an interest rate ranging between 0.25% and 2.20% annually with minimum RSD 300 thousand deposited.

Short-term foreign currency deposits of corporate customers were placed at an interest rate ranging between 0.00% and 3.10% annually.

Long-term RSD deposits of corporate customers were placed at an interest rate determined by the amount of the National Bank of Serbia key policy annual rate decreased from 1.85 to 1.70 percentage points, whereas those denominated in foreign currency accrued interest at the annual rate from 0.4% to 5.0%.

Retail Customer Deposits

Demand RSD savings deposits of retail customers were placed at the annual interest rate of 0.15%. Foreign currency demand deposits were placed at the annual interest rate of 0.01% and 0.05% for EUR, and 0.10% and 0.05% for other currencies.

In 2016 short-term dinar RSD deposits of retail customers were placed at interest rates ranging from 2.00% to 4.5 % annually and those in foreign currencies at rates from 0.05% to 1.9% annually for EUR and from 0.05% to 2.9% annually for other currencies.

Long-term RSD deposits of retail customers were placed at interest rates ranging from 4.75% to 5.00% annually and those in foreign currencies at rates from 0.75% to 4.8% annually for EUR and from 0.75% to 2.90% annually for other currencies.

Borrowings comprise liabilities arising from foreign lines of credit due to foreign legal entities which, for the purpose of compiling the balance sheet, are regarded as customers.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

a) Provisions for litigations of Parent Bank

A provision was done on the basis of estimates of future outflows in the amount of damage claims including interest and costs.

Major items relate to:

- Provisions for arrangements with Intereksport ad, Beograd (in bankruptcy) - by letter of credit from 1991 in the amount of RSD 368,221 thousand.

The subject of the dispute has been split into two separate cases before the court - a complaint because of the settlement of obligations Intereksport ad, Beograd (bankrupt) by the Republic of Serbia as follows:

The Republic of Serbia, in the amount of USD 4,773 thousand for the principal (and USD 1,132 thousand for interest payments until the time of payment). Litigation was paid on October 10, 2016, and the amount of the provision is reduced to zero.

Based on the instructions of the Ministry of Finance of the Republic of Serbia on October 10, 2016, the Bank effected a payment of USD 7,030 thousand and 638 thousand for the costs of the dispute (USD 4,773 thousand for principal and USD 2,257 thousand of interest expense). The bank made the payment as a release in provision in the amount of RSD 649,538 thousand and the difference of RSD 125,567 thousand recognized as expense of the current period. The total amount of payments was RSD 775,105 thousand.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

33. PROVISIONS (continued)**a) Provisions for litigations of Parent Bank (continued)**

Upon payment, provision still contained amount for a part of the dispute towards to Intereksport ad Belgrade (in bankruptcy) in the amount of USD 1,946 thousand for the principal and USD 1,047 thousand for interest. As of December 31, 2016. The RSD equivalent for the mentioned provision is RSD 368,221 thousand.

- The Privatization Agency (Case Vektra M doo, Beograd) in the amount of RSD 226,536 thousand for interest.

Additional information about the litigation with the Privatization Agency (Case Vektra M doo, Beograd):

On the proposal of the Agency for privatization of 15 May 2015 the Commercial Court in Belgrade on 20 May 2015 issued an enforcement lv 3750/15, which made the Bank liable to pay the amount of RSD 196,523 thousand with interest of July 4 2007 until the date of payment as well as the costs of the proceedings.

The subject of the dispute is the guarantee for good business performance in the amount of EUR 2,471 thousand issued based on the Agreement on the sale of social capital DP Zupa, concluded on January 13 2004 between the Agency for Privatization of the Republic of Serbia and the Company " Vektra M " doo, Beograd.

The Bank has received decision on execution on 25 May 2015 and upon completion of the objection to the decision the subject is transferred to the litigation.

The Bank has made a provision under the guarantee (Increases in provisions for off-balance sheet) in the amount of RSD 260,686 thousand. Accrued interest from the dispute as of December 31, 2016 in the amount of RSD 226,356 thousand was recognized in the provision for litigation.

- Provision for legal dispute initiated by individual on the basis of unjust enrichment and retention of net dividends was made in total amount of RSD 163,756 thousand.

b) Provisions for employee benefits

Provisions for retirement benefits were formed on the basis of an independent actuary report at the balance sheet date, and they are stated in the present value of expected future payments. The main actuarial assumptions used in calculation of retirement benefits were as follows:

	December 31, 2016.	December 31, 2015.
Parent Bank		
Discount rate	5.00%	5.25%
Salary growth rate within the Bank	5.00%	2.00%
Employee turnover	4.00%	5.00%

According to IAS 19, discount rate used should be in line with market yields on high quality corporate bonds, or long-term government bonds. Currently, in the financial market there are no such securities, so, interest rate on long-term bonds issued by the Government of the Republic of Serbia was used to determine the discount rate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

33. PROVISIONS (continued)

b) Provisions for employee benefits (continued)

Komercijalna Banka a.d., Budva

Discount rate	4.00%	5.00%
Salary growth rate within the Bank	4.50%	2.00%
Employee turnover	6.00%	5.00%

According to IAS 19, discount rate used should be in line with market yields on high quality corporate bonds, or long-term government bonds. Currently, in the financial market there are no such securities, so, interest rate on long-term bonds issued by the Government of the Republic of Montenegro was used to determine the discount rate.

Komercijalna Banka a.d., Banja Luka

Discount rate	5.00%	5.00%
Salary growth rate within the Bank	1.00%	2.00%
Employee turnover	3.00%	5.00%

According to IAS 19, discount rate used should be in line with market yields on high quality corporate bonds, or long-term government bonds. Currently, in the financial market there are no such securities, so, interest rate on ten-year bonds issued by the Government of the Republic of Srpska was used to determine the discount rate.

KomBank INVEST a.d., Beograd

Discount rate	5.00%	5.25%
Salary growth rate within the Bank	7.00%	2.00%
Employee turnover	5.00%	5.00%

According to IAS 19, discount rate used should be in line with market yields on high quality corporate bonds, or long-term government bonds. Currently, in the financial market there are no such securities, so, interest rate on long-term bonds issued by the Government of the Republic of Serbia was used to determine the discount rate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

34. OTHER LIABILITIES

Other liabilities include:

	In RSD thousand	
	December 31, 2016.	December 31, 2015.
Accounts payable	311,749	220,334
Liabilities to employees (salaries, payroll taxes and contributions and other liabilities to employees)	303,811	271,753
Advances received	66,815	54,372
Accrued interest, fees and commissions	122,932	107,971
Accrued liabilities and other accruals	462,269	243,589
Liabilities in settlement	2,028,191	1,307,290
Dividend payment liabilities	2,490,770	2,586,715
Taxes and contributions payable	97,306	69,667
Other liabilities	430,486	158,275
Balance as at December 31	6,314,329	5,019,966

Liabilities in settlement totaling RSD 2,028,191 thousand mostly relate to the liabilities for sale and purchase of foreign currencies in the foreign exchange market in the amount of RSD 864,306 thousand and foreign currency liabilities for spot transactions in the amount of RSD 752,996 thousand.

Liabilities from profit in the amount of RSD 2,490,770 thousand consist of:

- dividend payment liabilities arising from dividends on preferred shares in the amount of RSD 56,467 thousand,
- dividend payment liabilities on ordinary shares in the amount of RSD 1,934,065 thousand and
- liabilities from profit to employees in the amount of RSD 500.237 thousand.

With the Decision of the Bank 9520 / 3d of May 24, 2016, a part of prior year's retained earnings was distributed for dividends on preferred shares in the amount of RSD 23,531 thousand with a payout limit of fulfillment of the requirements stated in the Article 25 of the Banking Act, The Republic of Serbia.

During 2016, the Bank did not carry out payments based on the distribution of profits for 2014 and 2015 because of the abovementioned limitation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

35. EQUITY (continued)

35.1 Equity is comprised of (continued)

Revaluation reserves totaling RSD 6,439,985 thousand (2015: RSD 5,688,871 thousand) relate to the effects of increase in the value of property based on the independent appraisal amounting to RSD 1,133,209 thousand, net gains on the value adjustment of securities available for sale amounting to RSD 3,290,188 thousand, actuarial gains of RSD 88,900 thousand and translational reserves in the amount of RSD 1,927,688 thousand.

In 2016 prior years' dividends for 2013 on preferred shares were paid in the amount of RSD 196,477 thousand to shareholder IFC.

By the Decision of the Parent Bank number 9520/3c from May 24, 2016, loss from 2015 was covered in the amount of RSD 6,299,631 thousand as follows:

- ▶ part from the retained earnings in the amount of RSD 156,019 thousand and
- ▶ reserves from the Bank's profit for estimated losses on balance sheet assets in the amount of RSD 6,143,612 thousand.

In 2016 the Parent bank in 2016 did not carry out the payment of dividends from 2014 and 2015.

Total liabilities for dividends established by distribution of profit for 2014 and 2015 and earlier years is:

- ▶ RSD 56,467 thousand for preference shares
- ▶ RSD 1,934,065 thousand ordinary shares

On November 24 2014 preference shares were exchanged into ordinary shares with a rate of 6.29%.

The calculation for the payment of dividends on preference shares according to the Annual account for the year 2016 is based on the interest rate on savings deposits in RSD, deposited for a period of twelve months and amounts to RSD 16,808 thousand.

Correction of the prior year data - loss and reserves (relate to Note 3.1)

In accordance with the requirements of IAS 8, which was related to the allocation of effects of changes in methods of income from interest, discount and premium of securities available for sale, comparative data presented in 2015 were restated as follows: Interest income from investment securities in the amount of RSD 238,273 thousand. By the same amount total net operating income and loss before and after tax are corrected. Loss for the period after all corrections is RSD 6,061,358 thousand. Correction of revaluation reserves for 2015 is carried down in the amount of 1,143,039 thousand (relate to Note 3.1).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

35. CAPITAL (continued)

35.2. Earnings (loss) per share

Basic earnings per share is calculated by dividing the profit (loss) attributable to shareholders (of a parent company) by weighted average number of ordinary shares outstanding for the period.

	<u>2016</u>	<u>2015</u>
Loss plus preferred dividend (adjusted prior column)	(8,079,990)	(6,084,889)
Weighted average number of shares outstanding	<u>16,817,956</u>	<u>16,817,956</u>
Earnings (loss) per share (in RSD)	<u>(480)</u>	<u>(362)</u>

Basic loss per share for the year 2016 amounts to RSD 480 or 48.04% of the nominal value of ordinary shares, while for 2015 adjusted loss per share was RSD 362, or 36.18% of the nominal value of the ordinary shares. The increase of earnings per share in 2016 compared to 2015 was caused by the reported loss of the Bank's current operations in the amount of RSD 8,377,636 thousand.

Decreased (diluted) loss per share for the year 2016 amounts to RSD 480 or 48.04% of the nominal value of ordinary shares, while the 2015 loss amounted to RSD 362 or 36.18% of the nominal value of the ordinary shares.

35.3. Cumulative foreign exchange losses and gains on foreign transactions

	In RSD '000			
	Cumulative FX losses/gains on the basis of shares in subsidiaries (Note 25)	Cumulative FX losses/gains on the basis of intercompany transactions	Cumulative FX losses/gains on income adjustments to the FX rate as at December 31	Total (Note 35.1)
Balance as at January 1, 2015	<u>1,681,795</u>	<u>70,055</u>	<u>64,192</u>	<u>1,816,042</u>
Increase	38,768	(9,493)	(5,337)	23,938
Balance as at December 31, 2015	1,720,563	60,562	58,855	1,839,980
Increase	<u>107,191</u>	<u>(16,262)</u>	<u>(3,221)</u>	<u>87,708</u>
Balance as at December 31, 2016	<u>1,827,754</u>	<u>44,300</u>	<u>55,634</u>	<u>1,927,688</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

36. CONTINGENT LIABILITIES AND OTHER OFF-BALANCE SHEET ITEMS

	December 31 2016	In RSD '000 December 31 2015
Operations on behalf and for the account of third parties	4,466,969	4,488,679
Taken-over future liabilities	35,025,089	30,505,938
Other off-balance sheet items	512,478,491	586,833,057
Total	551,970,549	621,827,674

36.1 Guarantees and letters of credit

The Bank issues guarantees and letters of credit to vouch to third parties for the liability settlement by its clients. Such contracts have defined validity terms, which most commonly last up to a year. The contractual values of contingent liabilities are presented in the table below:

	December 31 2016	In RSD '000 December 31 2015
Payment guarantees (Note 4.1.1.)	4,336,212	5,337,033
Performance guarantees (Note 4.1.1.)	6,950,946	6,756,946
Letters of credit	84,143	54,165
Guaranteed bills	-	-
Balance as at December 31	11,371,301	12,148,144

The above listed amounts represent the maximum amount of loss that the Bank would incur as at reporting date in the event that none of the Bank's clients were able to settle their contractual obligations (Note 4).

36.2 The breakdown of commitments is provided below:

	December 31 2016	In RSD '000 December 31 2015
Unused portion of approved payment and credit card loan facilities and overdrafts	9,430,627	9,116,540
Irrevocable commitments for undrawn loans	12,232,330	8,473,442
Other irrevocable commitments	1,168,323	767,812
Other commitments per contracted value of securities	822,508	-
Balance as at December 31	23,653,788	18,357,794

Irrevocable commitments for undrawn loans include internal relationship based on unused loans granted to Komercijalna Banka AD Banja Luka in the amount of RSD 370,417 thousand. Undisbursed overdraft credit cards include internal relationship based on business cards of KomBank INVEST with Parent Bank in the amount of RSD 200 thousand.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

36. CONTINGENT LIABILITIES AND OTHER OFF-BALANCE SHEET ITEMS (continued)**36.3 Other off-balance sheet items comprise managed funds and other off-balance sheet assets**

Funds managed on behalf and for the account of third parties amount to RSD 4,466,969 thousand and are mostly comprised of assets for consignment loans of the Republic of Serbia in the amount of RSD 3,683,170 thousand and relate to the long-term housing loans extended to retail customers. Other assets mainly relate to agricultural loans financed by the relevant ministries.

Within other off-balance sheet assets which amount to RSD 512,478,291 thousand, the Group, among other things, records collateral obtained in order to secure placements and receivables in the amount of RSD 257,788,827 thousand, nominal value of securities per custody operations performed for the account of its clients (RSD 61,574,024 thousand), the nominal value of the securities in the portfolio of the Bank (RSD 138,794,904 thousand), repo investments in Treasury bills (RSD 20,000,000 thousand), old FX savings bonds and the amount of permanent written-off balance sheet items - loans and receivables transferring to the off - balance in the amount of RSD 18,879,642 thousand. As per its operating license to perform custody operations, the Parent Bank maintains the financial instruments of its clients on the security accounts, recorded off balance. The Parent Bank takes no credit risk in respect of managed funds.

Moreover, in accordance with the newly enacted regulations, other off-balance sheet assets include the value of the tangible assets received as collaterals securitizing loan repayment: residential and commercial real estate properties and other collaterals.

36.4 Litigation

Based on the expert estimate made by the Legal Department and attorneys at law representing the Group members, the Group made provisions for potential litigation losses for all the legal suits filed against its members in 2016 in the total amount of RSD 1,042,094 thousand (Note 33).

As of December 31, 2016 contingent liabilities based on legal suits filed against the Group members amounted to RSD 2,113,496 thousand (for 385 cases). The Group members' management do not expect material losses in the future on this basis above the provision made.

In addition, the Bank is involved in legal suits against third parties where the most significant portion of the total claims amounted to RSD 168,691,636 thousand (for 881 cases with the largest individual claim amounts). The Group members' management anticipates favorable outcome of the most lawsuits.

36.5 Commitments for operating lease liabilities are provided below:

	December 31	In RSD '000
	2016	December 31
	2016	2015
Commitments due within one year	506,941	516,997
Commitments due in the period from 1 to 5 years	1,121,854	1,179,547
Commitments due in the period longer than 5 years	156,006	136,232
Total	1,784,801	1,832,776

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

36. CONTINGENT LIABILITIES AND OTHER OFF-BALANCE SHEET ITEMS (continued)

36.6 Tax Risks

Tax systems in the Republic of Serbia, Montenegro and Bosnia and Herzegovina are undergoing continuous changes and revisions. In different circumstances, tax authorities could have different approach to some problems, and could establish additional tax liabilities together with related penalty interest and fines. The Group members' management believes that tax liabilities recognized in the financial statements are fairly presented.

37. RELATED PARTY DISCLOSURES

The largest portions of the Parent Bank's voting shares are held by the Republic of Serbia (41.74% of ordinary shares) and EBRD, London (24.43% of ordinary shares). The Parent Bank has 3 subsidiaries: Komercijalna banka a.d., Budva, Komercijalna banka a.d., Banja Luka and KomBank Invest a.d., Beograd.

Legal entities are treated as related parties if one legal entity has control over another legal entity or exercises significant influence over financial and business decisions of another entity. Related parties are also entities under joint control of the same parent entity. The Parent bank discloses the Group's related party relationships according to the methodology of the National Bank of Serbia.

In the normal course of business, a number of banking transactions are performed within the Group. These include loans, deposits, investments in equity securities and derivative instruments, payment transfers and other banking operations.

Related parties transactions were carried out on commercial and market conditions. Consolidated transactions with affiliated entities are presented in Note 6.1.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

37. RELATED PARTY DISCLOSURES (continued)

37.3 Gross and net remunerations paid to the members of the Group members's Executive Board, Board of Directors and Audit Committee were as follows:

	December 31, 2016	In thousand RSD December 31, 2015
Gross remunerations		
Executive Board	207,762	163,191
Net remunerations		
Executive Board	169,685	129,437
Gross remunerations		
Board of Directors and Audit Committee	46,455	49,700
Net remunerations		
Board of Directors and Audit Committee	29,263	33,113

During 2016 there was a change in the Executive Board of the Parent bank and Executive Directors of Komercijalna banka a.d. Budva and Komercijalna banka a.d. Banja Luka, and on that basis the agreed fees for contract termination were paid. Since those fees had a treatment of earnings, this consequently influenced the increase in gross and net salaries.

The Group members approved loans to the members of their Executive Boards, Boards of Directors and Audit Committees in the total amount of RSD 44,508 thousand (2015: 130,200 thousand).

38. UNRECONCILED OUTSTANDING ITEM STATEMENTS AND UNREALIZED DIVIDENDS

Unreconciled Outstanding Item Statements

Based on the performed regular annual inventory count at 31 December 2016, the Parent bank has unreconciled outstanding Item statements with 24 clients.

Unreconciled statements for 7 clients relate to clients who challenge the amount of receivables for advance payments, receivables arising from issued invoices, receivables from lease payments in total amount of RSD 15,186 thousand. These receivables were impaired in total amount.

For 4 clients unreconciled amounts are related to off-balance sheet items for irrevocable commitments for undrawn loans, challenge of the amount shown in the letter of intent, challenge of the balance to some guarantees on 31.12.2016 in total amount of 28,355 thousand RSD.

13 clients challenge a claim for compensation of domestic and international payment transactions, the due amount of the annuity, the manner of calculating default interest in total amount of RSD 2,113 thousand.

The amount of provisions for claims that are challenged (and the amount of provisions for balance sheet items) is determined by the Bank's credit risk policy.

The Parent bank is in the continuous process of reconciling the challenged items.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2016

**38. UNRECONCILED OUTSTANDING ITEM STATEMENTS AND UNREALIZED DIVIDENDS
(continued)**

Unreconciled Outstanding Item Statements (continued)

Komercijalna banka a.d.Banja Luka and KomBank INVEST had no unreconciled outstanding item statements.

Komercijalna banka a.d. Budva had 2 unreconciled statements in total amount of 148 thousand RSD.

Unrealized dividends

Unrealized dividends payable in 2016 amount to:

- Payable from 2014 RSD 1,934,065 thousand for preferred shares and 28,686 thousand for priority shares (Note 34.1).
- Contingent liabilities for the payment of priority dividends on the basis of the calculation for the year 2015 amounted to RSD 23,530 thousand (Note 35.1).
